

Brand: Mercedes-Benz
Model: C-Class C220d Avantgarde
Price: €28,900
Year: 2019
Type of car: Saloon
Mileage: 74,800 km
Fuel: Diesel
Transmission: Automatic
Colour: Obsidian Black

Description:

The Mercedes-Benz C220d Avantgarde is a refined executive saloon designed for comfort-focused drivers who spend significant time on the road. Its diesel engine delivers strong torque and excellent motorway efficiency, making it particularly suitable for longer commutes or business travel. The automatic transmission ensures smooth and relaxed driving in traffic, while the Avantgarde trim typically emphasizes elegance and comfort over sportiness. Inside, the cabin offers a premium atmosphere with high-quality materials and a quiet ride. This model appeals to professionals seeking a balance between prestige, comfort, and operating efficiency.

Ideal for:

Business professionals, motorway commuters, comfort-oriented drivers, long-distance travelers.

Key advantages:

- Strong diesel efficiency for long trips
- Smooth automatic transmission
- Quiet and comfortable cabin
- Premium brand presence
- Stable and refined motorway driving

Market segment:

Executive saloon / Premium mid-range

Brand: Mercedes-Benz
Model: GLC 300e
Price: €42,500
Year: 2021
Type of car: SUV
Mileage: 41,200 km

Fuel: Plug-in Hybrid
Transmission: Automatic
Colour: Graphite Grey

Description:

The Mercedes-Benz GLC 300e combines SUV practicality with plug-in hybrid efficiency, offering flexibility for both city and long-distance driving. When charged regularly, the electric component can handle shorter urban trips with reduced fuel consumption, while the gasoline engine provides range for extended journeys. The elevated driving position and spacious cabin make it well suited for families or professionals who need versatility without sacrificing premium comfort. The automatic transmission ensures a seamless driving experience, and the GLC's refined suspension setup prioritizes ride quality over aggressive sportiness.

Ideal for:

Families, urban + suburban drivers, eco-conscious premium buyers, drivers with home charging access.

Key advantages:

- Plug-in hybrid versatility
- Spacious and comfortable interior
- Smooth automatic driving
- Premium SUV feel
- Balanced efficiency and performance

Market segment:

Premium SUV / Upper mid-range

Brand: Audi

Model: A3 Sportback 35 TFSI

Price: €23,600

Year: 2020

Type of car: Hatchback

Mileage: 49,500 km

Fuel: Gasoline

Transmission: Manual

Colour: Glacier White

Description:

The Audi A3 Sportback 35 TFSI is a compact premium hatchback that offers a refined driving experience in an efficient, city-friendly format. The gasoline engine combined with a manual gearbox gives drivers direct control while maintaining reasonable running costs. The

A3 is known for its high-quality interior materials and understated, modern design. Its compact size makes it easy to maneuver in urban areas, yet it remains stable and comfortable at motorway speeds. This makes it a versatile option for young professionals or small families who want a premium badge without moving into larger segments.

Ideal for:

Urban drivers, small families, premium compact buyers, commuters wanting manual control.

Key advantages:

- Premium interior quality
- Compact yet practical hatchback layout
- Balanced city and highway usability
- Strong brand appeal
- Manual gearbox for driving engagement

Market segment:

Premium compact hatchback

Brand: Audi

Model: A4 Avant S line

Price: €30,200

Year: 2019

Type of car: Estate / Wagon

Mileage: 82,000 km

Fuel: Diesel

Transmission: Automatic

Colour: Daytona Grey

Description:

The Audi A4 Avant S line blends estate practicality with sporty styling and executive-level comfort. Its diesel engine is particularly suitable for drivers covering long distances, delivering efficient cruising and strong mid-range torque. The Avant body style provides generous cargo space without the height and bulk of an SUV, making it ideal for families who prefer a lower center of gravity and more dynamic handling. The S line trim typically enhances the vehicle's visual appeal and driving feel, offering a sportier aesthetic while maintaining everyday comfort.

Ideal for:

High-mileage drivers, families needing boot space, professionals, drivers wanting sporty styling with practicality.

Key advantages:

- Large cargo capacity
- Efficient diesel engine
- Automatic gearbox for relaxed travel
- Sporty S line design
- Stable and refined motorway performance

Market segment:

Premium estate / Executive

Brand: Audi

Model: Q5 40 TDI quattro

Price: €35,900

Year: 2020

Type of car: SUV / 4x4

Mileage: 64,300 km

Fuel: Diesel

Transmission: Automatic

Colour: Mythos Black

Description:

The Audi Q5 40 TDI quattro is a premium mid-size SUV offering a balance between comfort, performance, and all-wheel-drive confidence. The diesel engine provides strong efficiency for longer journeys, while the quattro system enhances traction and stability in varied weather conditions. The cabin layout emphasizes quality and ergonomic design, creating a comfortable environment for both driver and passengers. With its SUV dimensions and premium features, the Q5 is well suited to families and professionals seeking a refined, versatile vehicle that performs equally well in urban and highway settings.

Ideal for:

Families, long-distance drivers, drivers in mixed weather conditions, premium SUV buyers.

Key advantages:

- Quattro all-wheel-drive stability
- Efficient diesel performance
- Spacious and comfortable interior

- Automatic transmission convenience
- Strong balance of luxury and practicality

Market segment:

Premium mid-size SUV

Brand: Ford

Model: Focus ST-Line

Price: €18,900

Year: 2019

Type of car: Hatchback

Mileage: 77,600 km

Fuel: Gasoline

Transmission: Manual

Colour: Race Red

Description:

The Ford Focus ST-Line is a sporty-oriented hatchback designed for drivers who want a more dynamic feel without moving into a high-performance category. Its gasoline engine paired with a manual gearbox provides responsive handling and direct driver engagement. The ST-Line styling typically adds visual sportiness while keeping insurance and fuel costs manageable. The Focus platform is known for balanced suspension tuning, offering enjoyable cornering while remaining comfortable for daily commuting. This model is ideal for younger drivers or anyone wanting a practical car with a more energetic personality.

Ideal for:

Young drivers, commuters, drivers who enjoy manual gearboxes, city and suburban use.

Key advantages:

- Sporty driving feel
- Manual gearbox engagement
- Practical hatchback size
- Affordable entry into sporty styling
- Balanced comfort and agility

Market segment:

Compact hatchback / Sport-inspired

Brand: Ford
Model: Kuga Titanium
Price: €23,400
Year: 2020
Type of car: SUV
Mileage: 69,200 km
Fuel: Hybrid
Transmission: Automatic
Colour: Magnetic Grey

Description:

The Ford Kuga Titanium offers SUV practicality with hybrid efficiency, making it well suited for family use and urban commuting. The hybrid system reduces fuel consumption during stop-and-go traffic while maintaining enough power for highway driving. The Titanium trim usually emphasizes comfort features and usability, creating a well-equipped daily vehicle. With generous cabin space and a comfortable suspension setup, the Kuga is ideal for buyers who want the higher driving position of an SUV combined with manageable operating costs.

Ideal for:

Families, urban commuters, hybrid buyers, drivers wanting SUV comfort without premium pricing.

Key advantages:

- Hybrid efficiency in mixed driving
- Spacious and comfortable interior
- Elevated driving position
- Automatic convenience
- Good balance of value and practicality

Market segment:

Family SUV / Mainstream

Brand: Ford
Model: Mustang GT
Price: €44,000
Year: 2018
Type of car: Coupe / Sports Car
Mileage: 52,000 km
Fuel: Gasoline

Transmission: Manual
Colour: Grabber Blue

Description:

The Ford Mustang GT is a performance-focused sports coupe built around a powerful gasoline engine and rear-wheel-drive dynamics. It delivers strong acceleration, a distinctive engine sound, and a classic sports-car character that prioritizes excitement over practicality. The manual transmission enhances driver involvement, appealing to enthusiasts who value mechanical engagement. While not designed primarily for family use, it can serve as a daily driver for someone prioritizing driving pleasure and road presence. This model stands out for its iconic styling and emotional appeal.

Ideal for:

Driving enthusiasts, performance-focused buyers, weekend drivers, sports car collectors.

Key advantages:

- Strong performance and acceleration
- Engaging manual gearbox
- Iconic design and road presence
- Distinctive engine sound
- Emotional driving experience

Market segment:

Sports coupe / Performance

Brand: Peugeot

Model: 208 Allure

Price: €15,200

Year: 2020

Type of car: Hatchback

Mileage: 41,300 km

Fuel: Gasoline

Transmission: Manual

Colour: Yellow Faro

Description:

The Peugeot 208 Allure is a compact hatchback designed primarily for urban mobility and efficient daily driving. Its gasoline engine and manual gearbox provide simple, cost-effective ownership, making it attractive to younger drivers or city residents. The 208 is compact enough for easy parking while still offering adequate interior comfort for short trips and

commuting. The Allure trim generally includes added comfort and technology features compared to entry-level versions, improving the overall daily driving experience.

Ideal for:

City drivers, first-time buyers, students, daily commuting, budget-conscious drivers.

Key advantages:

- Easy to park and maneuver
- Low fuel and maintenance costs
- Modern compact design
- Affordable ownership
- Practical urban mobility

Market segment:

Urban hatchback / Budget-mid

Brand: Peugeot

Model: 3008 GT Line

Price: €26,800

Year: 2019

Type of car: SUV

Mileage: 73,500 km

Fuel: Diesel

Transmission: Automatic

Colour: Grey Amazonite

Description:

The Peugeot 3008 GT Line is a stylish mid-size SUV that blends modern design with strong practicality. Its diesel engine makes it well suited for longer journeys, delivering solid fuel economy and comfortable motorway cruising. The GT Line trim typically emphasizes sporty aesthetics and enhanced interior features, creating a more upscale feel compared to base versions. With generous cabin space and a comfortable ride, the 3008 is ideal for families or professionals seeking an SUV that feels distinctive yet practical for everyday use.

Ideal for:

Families, long-distance drivers, design-conscious buyers, SUV commuters.

Key advantages:

- Efficient diesel for motorway use

- Automatic transmission comfort
- Spacious cabin and boot
- Modern interior styling
- Balanced comfort and practicality

Market segment:

Family SUV / Mid-range

Brand: Toyota

Model: RAV4 Comfort Package

Price: €26,900

Year: 2020

Type of car: Medium SUV

Mileage: 54,200 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Pearl White

Description:

The Toyota RAV4 Comfort Package is a highly practical and fuel-efficient medium SUV designed for families and daily commuters seeking reliability and comfort. Its hybrid powertrain delivers smooth automatic driving while keeping running costs low, especially in city traffic where regenerative braking helps maximize efficiency. The raised driving position improves visibility and confidence, while the cabin layout prioritizes usability and storage. With generous rear-seat space and a large boot, it's well-suited to weekend trips, airport runs, and daily school commutes. Toyota's reputation for durability and resale value makes this a sensible choice for buyers who want peace of mind and predictable ownership costs.

Ideal for:

Families, daily commuting, long-distance travel, drivers wanting low running costs, eco-conscious buyers.

Key advantages:

- Low fuel consumption in mixed driving
- Smooth automatic hybrid drivetrain
- Spacious interior and practical boot
- Comfort-oriented suspension for everyday use

- Strong reliability and resale value

Market segment:

Family SUV / Mid-range

Brand: Toyota

Model: Corolla Touring Sports Active

Price: €19,800

Year: 2019

Type of car: Estate / Wagon

Mileage: 72,500 km

Fuel: Gasoline

Transmission: Manual

Colour: Silver Metallic

Description:

The Toyota Corolla Touring Sports Active offers the practicality of an estate with the easy ownership characteristics Toyota is known for. As a wagon, it's built around usable boot space and day-to-day versatility—ideal for families, people who carry sports equipment, or anyone who prefers a lower, more stable driving feel than an SUV. The gasoline engine paired with a manual gearbox is a good fit for drivers who want control and straightforward maintenance. With a modern interior layout and a reputation for durability, this Corolla is a strong “do-it-all” option for commuting during the week and longer journeys on weekends.

Ideal for:

Families needing boot space, commuting, road trips, drivers who prefer manual control.

Key advantages:

- Large boot and practical load area
- Stable, comfortable ride for long distances
- Simple gasoline + manual setup (easy to maintain)
- Good overall reliability reputation
- Strong value for an estate body style

Market segment:

Practical family wagon / Mainstream

Brand: Toyota
Model: Yaris Cross Adventure
Price: €24,500
Year: 2022
Type of car: Compact SUV
Mileage: 18,300 km
Fuel: Hybrid
Transmission: Automatic
Colour: Forest Green

Description:

The Toyota Yaris Cross Adventure is a compact SUV that balances city-friendly dimensions with the higher seating position many drivers prefer. Its hybrid system is especially well suited for urban stop-and-go driving, delivering smooth acceleration and strong fuel efficiency without the need to plug in. The “Adventure” trim typically targets buyers who want a tougher look and a bit more lifestyle flexibility, while still keeping the car easy to park and maneuver. With low mileage for its year, it’s an attractive choice for someone seeking a newer car with modern tech, low operating costs, and a versatile cabin for daily errands or weekend plans.

Ideal for:

City drivers, young families, first-time SUV buyers, drivers prioritizing efficiency, urban commuters.

Key advantages:

- Excellent urban fuel efficiency (hybrid)
- Compact size, easy parking and maneuvering
- Comfortable driving position with good visibility
- Newer model year with low mileage
- Versatile cabin for daily use

Market segment:

Urban compact SUV / Mid-range

Brand: Volkswagen
Model: Golf VIII Life
Price: €22,400
Year: 2021
Type of car: Hatchback
Mileage: 45,000 km
Fuel: Gasoline

Transmission: Manual

Colour: Deep Black

Description:

The Volkswagen Golf VIII Life is a classic all-round hatchback with a strong balance between comfort, refinement, and everyday practicality. It's a great "one-car solution" for someone who needs a vehicle that feels solid on the highway but remains compact enough for city driving and parking. The gasoline engine and manual gearbox combination suits drivers who prefer engagement and typically offers predictable running costs. The Life trim is usually positioned as a comfort and tech-focused specification, making it a good fit for commuting, weekend trips, and general family use without moving up to a larger SUV.

Ideal for:

Commuters, city + highway mixed drivers, small families, drivers who like manual driving, first "premium-feel" hatchback buyers.

Key advantages:

- Balanced ride comfort and handling
- Practical hatchback layout with usable boot
- Solid motorway stability and refinement
- Manual gearbox for more control and efficiency
- Strong brand reputation in the compact segment

Market segment:

Compact hatchback / Mainstream-premium

Brand: Volkswagen

Model: Tiguan R-Line

Price: €31,900

Year: 2020

Type of car: SUV

Mileage: 61,700 km

Fuel: Diesel

Transmission: Automatic

Colour: Indium Grey

Description:

The Volkswagen Tiguan R-Line is a sporty-styled SUV that focuses on a premium look and a more dynamic feel while keeping the practicality expected from a family SUV. The diesel engine is a strong match for drivers who cover longer distances, offering efficient cruising and strong mid-range torque for highway driving and overtaking. An automatic transmission

adds comfort in traffic and on long journeys. The Tiguan's interior space, higher seating position, and typically well-finished cabin make it appealing to families or professionals who want a comfortable daily vehicle with a more aggressive design than standard trims.

Ideal for:

Drivers doing long motorway distances, families needing SUV space, business users, comfort-focused commuters.

Key advantages:

- Diesel efficiency for high-mileage drivers
- Automatic gearbox for relaxed driving
- SUV practicality: space and visibility
- Sporty R-Line styling and road presence
- Strong long-distance comfort

Market segment:

Family SUV / Upper mid-range

Brand: Volkswagen

Model: Passat Business

Price: €27,300

Year: 2019

Type of car: Saloon

Mileage: 83,900 km

Fuel: Diesel

Transmission: Automatic

Colour: Blue Metallic

Description:

The Volkswagen Passat Business is a classic executive-style saloon built for comfort, stability, and long-distance efficiency. With a diesel engine and automatic transmission, it's particularly suitable for frequent motorway driving where it typically delivers strong fuel economy and relaxed cruising. The Passat is known for offering generous cabin space—especially in the rear seats—making it a strong choice for professionals, families who prefer a saloon, or anyone who spends a lot of time on the road. The “Business” positioning usually emphasizes practicality and features geared toward daily usability and work-oriented driving.

Ideal for:

Business users, motorway commuters, frequent travelers, drivers prioritizing comfort and efficiency.

Key advantages:

- Excellent long-distance comfort
- Diesel economy ideal for frequent driving
- Spacious cabin, especially rear seating
- Automatic transmission for stress-free commuting
- Stable handling and refined cruising feel

Market segment:

Executive saloon / Mid-to-upper range

Brand: BMW

Model: Series 3 320d Sport

Price: €29,800

Year: 2020

Type of car: Saloon

Mileage: 58,400 km

Fuel: Diesel

Transmission: Automatic

Colour: Alpine White

Description:

The BMW 320d Sport is a benchmark in the sporty saloon category, blending premium cabin quality with a driving experience that feels more engaging than most competitors. The diesel engine offers strong torque and efficiency, making it a good fit for drivers who want performance without sacrificing fuel economy—especially on longer trips. With an automatic transmission, it remains comfortable in daily traffic while still delivering confident acceleration when needed. This model appeals to drivers who want a refined, premium vehicle for commuting and travel, with a sharper steering feel and balanced handling typical of the 3 Series lineup.

Ideal for:

Professionals, long-distance drivers, premium car buyers, drivers who value sporty handling, motorway commuters.

Key advantages:

- Sporty driving dynamics with premium feel
- Diesel torque for effortless overtaking

- Efficient on longer journeys
- Automatic gearbox for comfort + performance
- Strong brand image and resale demand

Market segment:

Premium sport saloon / Upper mid-range

Brand: BMW

Model: X1 sDrive18i

Price: €25,900

Year: 2019

Type of car: Compact SUV

Mileage: 67,200 km

Fuel: Gasoline

Transmission: Automatic

Colour: Mineral Grey

Description:

The BMW X1 sDrive18i is a premium compact SUV that offers a practical footprint while delivering the elevated seating position and interior flexibility many buyers want. The gasoline engine and automatic transmission combination is well suited to mixed driving, especially for urban and suburban commuting. The X1 is often chosen for its premium cabin feel, easy-to-use layout, and balanced ride quality that doesn't feel overly bulky like larger SUVs. It's a strong option for buyers who want a higher-end daily car with a versatile cabin, without jumping to a much more expensive segment.

Ideal for:

City and suburban commuters, small families, premium compact SUV shoppers, drivers wanting automatic comfort.

Key advantages:

- Premium compact SUV with easy driving position
- Automatic transmission for city convenience
- Practical cabin and usable boot space
- Balanced ride (comfortable but stable)
- Strong brand appeal in the segment

Market segment:
Premium compact SUV / Upper mid-range

Brand: BMW
Model: X5 xDrive45e
Price: €52,000
Year: 2021
Type of car: Large SUV / 4x4
Mileage: 34,000 km
Fuel: Plug-in Hybrid
Transmission: Automatic
Colour: Black Sapphire

Description:

The BMW X5 xDrive45e is a large premium SUV that combines high comfort and strong performance with the flexibility of a plug-in hybrid system. It's designed for drivers who want the space and presence of a luxury 4x4 but also want the option to run on electric power for shorter daily trips (when charged), reducing fuel consumption in urban driving. On longer journeys, the gasoline engine provides range and effortless motorway cruising. With low mileage for its year, it's positioned as a high-value option in the luxury SUV category for families and professionals who want premium features, strong safety, and a refined driving experience.

Ideal for:

Families needing space, premium SUV buyers, mixed city + highway drivers, drivers who can charge at home/work.

Key advantages:

- Plug-in hybrid flexibility (electric for short trips)
- Spacious, premium interior and high comfort
- Strong performance and smooth automatic driving
- 4x4 capability for confidence in varied conditions
- Excellent long-distance cruising refinement

Market segment:
Luxury SUV / Premium upper segment

Brand: Mercedes-Benz
Model: A-Class A200 Progressive

Price: €24,700

Year: 2021

Type of car: Hatchback

Mileage: 39,600 km

Fuel: Gasoline

Transmission: Automatic

Colour: Polar Silver

Description:

The Mercedes-Benz A200 Progressive is a premium hatchback that emphasizes modern design, comfort, and a high-quality interior feel. With an automatic transmission and a gasoline engine, it's well suited for everyday commuting, especially for drivers who spend time in city traffic and want a smooth, easy drive. The A-Class is often chosen for its upscale cabin atmosphere and refined ride for a compact car, making it a strong choice for buyers stepping into the premium segment for the first time. With relatively low mileage, this model offers a newer feel and modern usability without entering the cost bracket of larger Mercedes models.

Ideal for:

Urban professionals, daily commuters, premium hatchback buyers, drivers wanting automatic convenience, city + highway use.

Key advantages:

- Premium interior feel in a compact format
- Automatic transmission for comfort in traffic
- Refined ride and solid motorway stability
- Modern design and strong brand image
- Good balance between size and practicality

Market segment:

Premium compact hatchback / Upper mid-range

Brand: Peugeot

Model: 508 Hybrid

Price: €32,500

Year: 2021

Type of car: Saloon

Mileage: 36,000 km

Fuel: Plug-in Hybrid

Transmission: Automatic

Colour: Dark Blue

Description:

The Peugeot 508 Hybrid is a modern executive saloon that combines sleek design with plug-in hybrid efficiency. It is well suited for drivers who want the comfort and presence of a larger saloon while reducing fuel consumption during short urban trips through electric driving capability. When charged regularly, it can significantly lower daily commuting costs, while the gasoline engine ensures flexibility for longer journeys. The automatic transmission enhances comfort in traffic, and the refined suspension setup makes it particularly suitable for motorway cruising. This model appeals to professionals who want a contemporary alternative to traditional premium saloons.

Ideal for:

Business professionals, urban commuters with charging access, long-distance drivers, efficiency-focused buyers.

Key advantages:

- Plug-in hybrid efficiency for short trips
- Comfortable and refined ride
- Executive saloon styling
- Automatic transmission convenience
- Balanced performance and economy

Market segment:

Executive saloon / Mid-to-upper range

Brand: Opel

Model: Astra GS Line

Price: €17,800

Year: 2020

Type of car: Hatchback

Mileage: 63,500 km

Fuel: Gasoline

Transmission: Manual

Colour: Volcano Red

Description:

The Opel Astra GS Line is a compact hatchback with sporty design elements and a practical layout for everyday use. The gasoline engine combined with a manual gearbox offers straightforward maintenance and good fuel economy, making it an appealing option for

commuters and city drivers. The GS Line trim typically focuses on a more dynamic visual appearance, while the ride remains comfortable enough for daily use. With its balanced size and usability, the Astra is suitable for drivers seeking a reliable and affordable vehicle without stepping into the SUV category.

Ideal for:

City commuters, young professionals, budget-conscious drivers, small households.

Key advantages:

- Sport-inspired styling
- Affordable running costs
- Easy maneuverability in urban areas
- Practical hatchback layout
- Good balance of comfort and efficiency

Market segment:

Compact hatchback / Mainstream

Brand: Opel

Model: Grandland X Hybrid4

Price: €28,900

Year: 2021

Type of car: SUV / 4x4

Mileage: 44,200 km

Fuel: Plug-in Hybrid

Transmission: Automatic

Colour: Pearl White

Description:

The Opel Grandland X Hybrid4 offers SUV versatility combined with plug-in hybrid efficiency and all-wheel-drive capability. Its hybrid system allows short urban journeys to be completed with reduced fuel consumption, while the gasoline engine supports longer trips without range anxiety. The elevated driving position enhances visibility and confidence, and the automatic transmission ensures smooth operation in both city traffic and highway conditions. With moderate mileage for its age, this model is suitable for families or professionals looking for a practical SUV that balances efficiency and traction in varied driving conditions.

Ideal for:

Families, mixed city and highway drivers, buyers with home charging access, drivers needing extra traction.

Key advantages:

- Plug-in hybrid flexibility
- SUV space and practicality
- Automatic driving comfort
- All-wheel-drive capability
- Reduced fuel costs for daily commuting

Market segment:

Family SUV / Mid-range hybrid

Brand: Opel

Model: Corsa-e

Price: €19,900

Year: 2021

Type of car: Hatchback

Mileage: 36,800 km

Fuel: Electric

Transmission: Automatic

Colour: Blue

Description:

The Opel Corsa-e is a fully electric compact hatchback designed primarily for urban mobility. Its electric powertrain provides smooth, quiet acceleration and zero tailpipe emissions, making it particularly attractive for city dwellers and short-distance commuters. The automatic operation simplifies driving in traffic, while the compact dimensions allow easy parking and maneuverability. With relatively low mileage for its year, this vehicle is an appealing choice for buyers transitioning into electric mobility without moving into a larger or more expensive segment.

Ideal for:

City drivers, short-distance commuters, environmentally conscious buyers, first-time EV owners.

Key advantages:

- Fully electric driving with no fuel costs
- Quiet and smooth acceleration
- Easy parking and maneuvering

- Low mileage for its year
- Reduced maintenance compared to combustion engines

Market segment:

Urban electric hatchback

Brand: Mazda

Model: Mazda3 Skyactiv-G

Price: €18,600

Year: 2019

Type of car: Hatchback

Mileage: 68,400 km

Fuel: Gasoline

Transmission: Manual

Colour: Soul Red Crystal

Description:

The Mazda3 Skyactiv-G is a compact hatchback known for its driver-focused design and smooth gasoline engine. The manual transmission enhances engagement, appealing to drivers who enjoy a more connected driving experience. Mazda's design philosophy emphasizes simplicity and ergonomic comfort, creating a cabin that feels refined without unnecessary complexity. The car performs well in both city and highway conditions, offering stable handling and a composed ride. It is a strong option for buyers seeking style, practicality, and enjoyable driving dynamics at a reasonable price point.

Ideal for:

Drivers who enjoy manual control, commuters, small families, style-conscious buyers.

Key advantages:

- Engaging manual driving experience
- Attractive design inside and out
- Balanced ride comfort and handling
- Reasonable fuel consumption
- Practical hatchback versatility

Market segment:

Compact hatchback / Mainstream

Brand: Mazda
Model: CX-30 Luxury
Price: €24,200
Year: 2021
Type of car: Compact SUV
Mileage: 37,600 km
Fuel: Gasoline
Transmission: Automatic
Colour: Machine Grey

Description:

The Mazda CX-30 Luxury is a compact SUV that blends premium-like interior design with practical everyday usability. Its gasoline engine and automatic transmission make it convenient for daily commuting, while the slightly elevated ride height provides improved visibility. The CX-30 sits between a traditional hatchback and a larger SUV, making it suitable for buyers who want versatility without excessive size. The interior quality and driving comfort make it appealing for both short urban trips and longer journeys.

Ideal for:

Urban professionals, small families, drivers wanting compact SUV practicality, automatic transmission users.

Key advantages:

- Refined interior design
- Easy-to-drive automatic setup
- Compact yet versatile SUV format
- Comfortable for mixed driving
- Modern styling and technology

Market segment:

Compact SUV / Upper mainstream

Brand: Mazda
Model: CX-5 AWD
Price: €27,800
Year: 2020
Type of car: SUV / 4x4
Mileage: 59,300 km
Fuel: Diesel
Transmission: Automatic
Colour: Deep Crystal Blue

Description:

The Mazda CX-5 AWD is a mid-size SUV designed for drivers who value comfort, efficiency, and added traction. The diesel engine offers strong torque and fuel economy for long-distance travel, while the all-wheel-drive system enhances confidence in varied weather conditions. The automatic transmission ensures relaxed driving, and the spacious interior makes it suitable for families or frequent travelers. The CX-5 balances dynamic handling with everyday comfort, making it a versatile option in the competitive SUV segment.

Ideal for:

Families, long-distance drivers, drivers in varied climates, buyers wanting AWD security.

Key advantages:

- Diesel efficiency for motorway driving
- All-wheel-drive stability
- Comfortable and spacious cabin
- Smooth automatic transmission
- Balanced ride quality

Market segment:

Mid-size SUV / Family

Brand: Volvo

Model: XC40 Momentum

Price: €31,200

Year: 2021

Type of car: Compact SUV

Mileage: 42,100 km

Fuel: Gasoline

Transmission: Automatic

Colour: Thunder Grey

Description:

The Volvo XC40 Momentum is a premium compact SUV emphasizing safety, comfort, and modern Scandinavian design. The gasoline engine and automatic gearbox provide smooth performance for both city and highway driving. Volvo's focus on safety features and solid construction makes the XC40 particularly appealing to families and cautious drivers. The cabin is designed with simplicity and practicality in mind, offering good storage solutions and a comfortable seating position. It is well suited to buyers seeking a compact SUV with a strong premium identity.

Ideal for:

Families, safety-conscious drivers, premium compact SUV buyers, urban + highway commuters.

Key advantages:

- Strong safety reputation
- Comfortable and refined driving experience
- Practical compact SUV dimensions
- Automatic transmission convenience
- Modern interior design

Market segment:

Premium compact SUV

Brand: Volvo

Premium mid-size SUV / Hybrid

Brand: Volvo

Model: S90 Inscription

Price: €36,700

Year: 2020

Type of car: Saloon

Mileage: 66,500 km

Fuel: Diesel

Transmission: Automatic

Colour: Silver Dawn

Description:

The Volvo S90 Inscription is a large executive saloon focused on comfort, space, and understated luxury. Its diesel engine makes it suitable for high-mileage drivers who require efficiency without sacrificing refinement. The Inscription trim emphasizes comfort and premium materials, creating a calm and elegant cabin atmosphere. This model is particularly appealing to professionals or families who prefer the ride comfort and lower stance of a saloon over an SUV. It offers a stable and composed driving experience, ideal for long-distance travel.

Ideal for:

Executives, long-distance commuters, comfort-focused drivers, premium saloon buyers.

Key advantages:

- Excellent long-distance comfort
- Efficient diesel engine
- Spacious rear seating
- Automatic transmission for relaxed driving
- Elegant, understated design

Market segment:
Executive saloon / Premium

Brand: Fiat
Model: 500 Lounge
Price: €11,900
Year: 2019
Type of car: City Car
Mileage: 52,000 km
Fuel: Gasoline
Transmission: Manual
Colour: Mint Green

Description:

The Fiat 500 Lounge is a compact city car built for urban life, offering small dimensions that make parking and narrow streets easy to handle. With a gasoline engine and manual transmission, it keeps ownership simple and typically cost-effective for short daily trips. Its compact footprint suits drivers who mostly operate in dense city environments and value convenience over maximum space. The Fiat 500 is also a popular choice for drivers who want a stylish, characterful design in a practical small-car package. While not intended for frequent long-distance family travel, it works well as a daily commuter or second car for errands and short journeys.

Ideal for:

City driving, first-time drivers, students, short commutes, second-car households.

Key advantages:

- Easy parking and maneuverability
- Simple gasoline + manual setup
- Low running costs for city use
- Compact and practical for urban trips
- Distinctive style for a small car

Market segment:
Urban city car / Budget

Brand: Fiat
Model: 500e
Price: €18,400
Year: 2021
Type of car: City Car
Mileage: 31,200 km
Fuel: Electric
Transmission: Automatic
Colour: Ice White

Description:

The Fiat 500e is an electric city car designed for quiet, smooth urban mobility with zero tailpipe emissions. Its automatic operation makes it very easy to drive in traffic, and the compact size is ideal for tight streets and small parking spaces. As an EV, it can reduce running costs compared to gasoline cars, particularly for drivers who charge at home or have easy access to charging infrastructure. With relatively low mileage for its year, it's a strong option for buyers who want a modern city-focused car with a simple driving experience and reduced maintenance compared to combustion vehicles.

Ideal for:

City commuters, first-time EV buyers, drivers with home charging, short daily trips, eco-conscious urban drivers.

Key advantages:

- Fully electric driving for urban efficiency
- Smooth and quiet automatic operation
- Very easy parking and maneuvering
- Lower maintenance than combustion cars
- Low mileage for its year

Market segment:

Urban EV / Budget-mid

Brand: Fiat
Model: Tipo Cross
Price: €16,800
Year: 2020
Type of car: Compact Crossover
Mileage: 61,700 km
Fuel: Diesel

Transmission: Manual

Colour: Bronze

Description:

The Fiat Tipo Cross is a practical compact crossover that offers a slightly elevated stance and everyday versatility at a reasonable price point. The diesel engine makes it suitable for drivers who do frequent longer trips or motorway commuting, as diesels tend to be efficient under steady-speed driving. The manual transmission keeps the vehicle straightforward and generally economical to maintain. This model is a good fit for buyers who want something more spacious than a city hatchback but don't need a full-size SUV. It provides a balanced option for mixed city and highway use while keeping ownership costs manageable.

Ideal for:

Budget-conscious families, commuters, mixed city/highway drivers, drivers preferring manual control.

Key advantages:

- Diesel efficiency for longer distances
- Practical crossover format without SUV bulk
- Manual gearbox for control and simplicity
- Good everyday usability and versatility
- Strong value in its segment

Market segment:

Compact crossover / Budget-mid

Brand: Jeep

Model: Renegade Limited

Price: €22,300

Year: 2020

Type of car: SUV

Mileage: 57,900 km

Fuel: Gasoline

Transmission: Automatic

Colour: Granite Crystal

Description:

The Jeep Renegade Limited is a compact SUV with a distinctive design and an easy-driving setup for daily use. The gasoline engine and automatic transmission combination suits urban commuting and suburban travel, offering convenience in traffic and a relaxed driving experience. Its SUV shape provides a higher seating position and a practical cabin for

passengers and everyday cargo. The Renegade appeals to drivers who want the SUV feel and style without moving into a much larger vehicle. It's a sensible choice for people who prioritize comfort, visibility, and a compact footprint for city parking.

Ideal for:

Urban SUV buyers, commuters, small families, drivers wanting automatic convenience, city + suburban use.

Key advantages:

- Compact SUV size with higher seating position
- Automatic transmission comfort
- Practical everyday cabin
- Distinctive SUV styling
- Balanced city usability and versatility

Market segment:

Compact SUV / Mainstream

Brand: Jeep

Model: Compass 4xe

Price: €29,700

Year: 2021

Type of car: SUV / 4x4

Mileage: 38,400 km

Fuel: Plug-in Hybrid

Transmission: Automatic

Colour: Green

Description:

The Jeep Compass 4xe combines SUV practicality with plug-in hybrid efficiency and added traction capability. The plug-in system can reduce fuel consumption for short trips when charged regularly, while still offering the flexibility of a gasoline engine for longer journeys. The automatic transmission makes daily driving easy, and the SUV layout provides comfortable seating and useful space for passengers and cargo. This model suits buyers who want a more versatile vehicle for mixed driving conditions, including occasional uneven roads or poor weather, without stepping into a full-size off-road platform.

Ideal for:

Families, mixed urban/highway drivers, buyers with charging access, drivers wanting extra traction and versatility.

Key advantages:

- Plug-in hybrid efficiency for daily trips
- SUV practicality and comfortable seating
- Automatic driving convenience
- Added traction confidence from 4x4 capability
- Good balance of efficiency and utility

Market segment:

Compact SUV / Hybrid mid-range

Brand: Jeep

Model: Wrangler Rubicon

Price: €48,900

Year: 2019

Type of car: Off-road 4x4

Mileage: 64,000 km

Fuel: Gasoline

Transmission: Automatic

Colour: Black

Description:

The Jeep Wrangler Rubicon is a specialized off-road 4x4 built for capability and rugged use rather than purely on-road comfort. It's designed for drivers who want a vehicle that can handle challenging terrain and adventurous driving scenarios. The gasoline engine and automatic transmission support ease of use, while the Wrangler's off-road-focused identity makes it appealing to enthusiasts and outdoor-oriented buyers. Compared to typical SUVs, it trades some everyday refinement for stronger ruggedness and a unique driving character. It can still be used daily, but it's best suited to owners who genuinely value off-road ability and iconic styling.

Ideal for:

Off-road enthusiasts, outdoor lifestyle drivers, adventure travel, drivers needing rugged capability.

Key advantages:

- Strong off-road capability focus
- Distinctive iconic design

- Automatic transmission convenience
- Suitable for adventurous and rugged use cases
- High lifestyle and enthusiast appeal

Market segment:

Off-road 4x4 / Lifestyle premium

Brand: Land Rover

Model: Range Rover Evoque

Price: €39,800

Year: 2021

Type of car: Premium SUV

Mileage: 41,600 km

Fuel: Diesel

Transmission: Automatic

Colour: Firenze Red

Description:

The Range Rover Evoque is a premium compact SUV designed for drivers who want luxury design, comfort, and a strong brand identity in a city-friendly size. The diesel engine supports efficient motorway driving for longer commutes, while the automatic transmission adds comfort in stop-and-go traffic. The Evoque is typically chosen for its upscale styling and premium feel, offering a higher-end experience than mainstream compact SUVs. Its size makes it manageable in urban environments, while still providing the elevated seating position and practical interior versatility expected from an SUV.

Ideal for:

Premium SUV buyers, urban professionals, style-conscious drivers, motorway commuters, small families.

Key advantages:

- Premium design and brand presence
- Diesel efficiency for longer journeys
- Automatic driving comfort
- Compact SUV dimensions for city use
- Refined ride and upscale feel

Market segment:
Premium compact SUV

Brand: Land Rover
Model: Discovery Sport
Price: €35,200
Year: 2020
Type of car: SUV
Mileage: 69,500 km
Fuel: Diesel
Transmission: Automatic
Colour: Grey

Description:

The Land Rover Discovery Sport is a practical SUV designed for families and drivers who need interior versatility and long-distance comfort. The diesel engine makes it a sensible choice for frequent motorway use, offering good efficiency and usable torque for overtaking and carrying passengers. The automatic transmission improves ease of driving in traffic and contributes to a relaxed cruising experience. This model is well suited to buyers who want an SUV with a premium-leaning identity and a focus on everyday usability, including commuting, family routines, and weekend travel.

Ideal for:

Families, long-distance commuters, SUV buyers needing practicality, drivers who prefer automatic comfort.

Key advantages:

- Diesel efficiency for frequent driving
- SUV space and everyday practicality
- Automatic transmission for relaxed commuting
- Comfortable cabin for family travel
- Versatile for mixed use cases

Market segment:
Family SUV / Upper mid-range

Brand: Land Rover
Model: Defender 110
Price: €58,000

Year: 2022
Type of car: Off-road SUV
Mileage: 27,000 km
Fuel: Diesel
Transmission: Automatic
Colour: Sand

Description:

The Land Rover Defender 110 is a modern off-road SUV designed to combine rugged capability with everyday practicality. Its diesel engine supports long-distance driving and strong low-end torque, while the automatic transmission makes it easier to manage in both urban traffic and rougher conditions. With low mileage for its year, this vehicle is positioned as a premium choice for buyers who want a distinctive, adventurous SUV with a strong identity. While it can be used as a daily vehicle, it particularly suits owners who value durability, versatility, and a more rugged lifestyle aesthetic than typical luxury SUVs.

Ideal for:

Outdoor lifestyle drivers, families needing a rugged SUV, long-distance travelers, drivers wanting premium off-road capability.

Key advantages:

- Strong off-road-oriented SUV identity
- Diesel torque suitable for varied driving
- Automatic transmission convenience
- Premium, distinctive styling
- Low mileage for its year

Market segment:

Premium off-road SUV / Luxury-adventure

Brand: Mini
Model: Cooper SE
Price: €26,900
Year: 2021
Type of car: Hatchback
Mileage: 22,500 km
Fuel: Electric
Transmission: Automatic
Colour: British Racing Green

Description:

The Mini Cooper SE is a fully electric hatchback that combines compact dimensions with a distinctive driving character. Designed primarily for urban mobility, it offers smooth and immediate electric acceleration, making it well suited for city commuting and short daily trips. The automatic operation simplifies traffic driving, while the small footprint makes parking and maneuvering effortless. Despite its compact size, the Mini maintains a premium interior feel and recognizable styling. With relatively low mileage for its year, it presents a modern option for drivers seeking electric mobility in a stylish and manageable format.

Ideal for:

City commuters, urban professionals, first-time EV buyers, drivers wanting compact premium styling.

Key advantages:

- Fully electric, zero tailpipe emissions
- Smooth and quiet automatic driving
- Compact size for easy parking
- Distinctive design and brand appeal
- Low mileage for its year

Market segment:

Premium urban EV / Compact

Brand: Mini

Model: Countryman Cooper D

Price: €27,400

Year: 2020

Type of car: Compact SUV

Mileage: 54,300 km

Fuel: Diesel

Transmission: Automatic

Colour: Light White

Description:

The Mini Countryman Cooper D offers the practicality of a compact SUV while retaining the brand's distinctive design identity. The diesel engine is well suited for longer commuting distances, delivering efficient motorway performance. Its automatic transmission provides comfort in traffic and daily driving scenarios. Compared to smaller Mini models, the Countryman offers increased interior space and improved versatility, making it suitable for small families or drivers who need more cargo capacity. It balances compact SUV proportions with a more premium feel than many mainstream alternatives.

Ideal for:

Small families, long-distance commuters, drivers seeking compact SUV practicality with premium design.

Key advantages:

- Diesel efficiency for motorway driving
- Automatic transmission convenience
- More space than smaller hatchbacks
- Distinctive Mini styling
- Practical yet compact SUV format

Market segment:

Premium compact SUV

Brand: Mini

Model: Clubman Cooper S

Price: €24,600

Year: 2019

Type of car: Estate / Wagon

Mileage: 71,800 km

Fuel: Gasoline

Transmission: Automatic

Colour: Blue

Description:

The Mini Clubman Cooper S is a compact estate that blends sporty character with improved practicality over traditional hatchbacks. The gasoline engine offers responsive performance, while the automatic transmission ensures comfort in daily use. The Clubman provides increased boot space compared to smaller Mini models, making it more suitable for weekend travel and small families. Its unique design and premium positioning appeal to buyers who want a distinctive vehicle that stands out from conventional wagons while still offering everyday usability.

Ideal for:

Style-conscious drivers, small families, drivers wanting sporty performance with added practicality.

Key advantages:

- Responsive gasoline performance

- Automatic comfort for daily driving
- Increased cargo space compared to hatchbacks
- Unique and distinctive design
- Premium small-estate positioning

Market segment:
Premium compact estate

Brand: Honda
Model: Civic Sport
Price: €19,200
Year: 2019
Type of car: Hatchback
Mileage: 64,700 km
Fuel: Gasoline
Transmission: Manual
Colour: Polished Metal

Description:

The Honda Civic Sport is a practical and reliable hatchback known for balanced handling and everyday efficiency. The gasoline engine paired with a manual gearbox provides an engaging driving experience while maintaining manageable running costs. The Civic is typically valued for its durability and stable road manners, making it suitable for both urban commuting and longer motorway journeys. With a practical hatchback layout and comfortable interior space, it appeals to drivers who want dependable performance without stepping into a premium price category.

Ideal for:

Commuters, small families, drivers who prefer manual control, reliability-focused buyers.

Key advantages:

- Reliable and durable reputation
- Manual gearbox engagement
- Balanced handling and comfort
- Practical hatchback layout
- Reasonable fuel consumption

Market segment:
Compact hatchback / Mainstream

Brand: Honda
Model: CR-V Hybrid
Price: €28,900
Year: 2020
Type of car: SUV
Mileage: 58,600 km
Fuel: Hybrid
Transmission: Automatic
Colour: White

Description:

The Honda CR-V Hybrid is a family-oriented SUV designed to combine interior space with improved fuel efficiency. The hybrid system supports lower fuel consumption in mixed driving conditions, particularly in urban environments. The automatic transmission enhances comfort in daily traffic and long-distance cruising. With generous cabin space and a practical layout, the CR-V is well suited for families requiring flexibility for school runs, shopping, and travel. It offers a stable ride and balanced comfort, making it an appealing option for buyers who prioritize practicality and reduced running costs.

Ideal for:

Families, hybrid-focused buyers, urban and suburban commuters, drivers wanting SUV comfort.

Key advantages:

- Hybrid efficiency in mixed driving
- Spacious interior and family practicality
- Smooth automatic operation
- Elevated driving position
- Balanced comfort for long journeys

Market segment:
Family SUV / Hybrid mid-range

Brand: Honda
Model: Jazz Crosstar
Price: €18,500

Year: 2021

Type of car: City Car / Crossover

Mileage: 29,900 km

Fuel: Hybrid

Transmission: Automatic

Colour: Yellow

Description:

The Honda Jazz Crosstar is a compact crossover-style city car designed for maximum practicality within a small footprint. Its hybrid system enhances efficiency in urban driving, while the automatic transmission simplifies everyday commuting. The Crosstar variant adds a slightly elevated look and added versatility compared to standard city hatchbacks. With relatively low mileage for its year, it represents a modern and economical choice for drivers prioritizing fuel efficiency and ease of use. It is particularly well suited to city dwellers who want compact dimensions without sacrificing interior flexibility.

Ideal for:

Urban commuters, hybrid buyers, first-time car owners, drivers seeking compact practicality.

Key advantages:

- Excellent urban fuel efficiency
- Compact and easy to park
- Automatic transmission convenience
- Flexible interior layout for a small car
- Low mileage and modern design

Market segment:

Urban hybrid crossover

Brand: Mitsubishi

Model: Outlander PHEV

Price: €26,400

Year: 2019

Type of car: SUV

Mileage: 72,300 km

Fuel: Plug-in Hybrid

Transmission: Automatic

Colour: Grey

Description:

The Mitsubishi Outlander PHEV is a plug-in hybrid SUV designed for drivers who want both

electric capability for short trips and gasoline support for longer journeys. When charged regularly, it can significantly reduce fuel consumption for daily commuting. The automatic transmission ensures ease of use, particularly in urban traffic. With SUV dimensions and practical interior space, it suits families or buyers needing versatility for mixed driving scenarios. It represents a balanced option for those transitioning into electrified driving while maintaining the flexibility of a traditional combustion engine.

Ideal for:

Families, drivers with charging access, mixed-distance commuters, hybrid transition buyers.

Key advantages:

- Plug-in hybrid flexibility
- SUV space and practicality
- Automatic transmission comfort
- Reduced fuel use for short trips
- Versatile for mixed driving needs

Market segment:

Hybrid SUV / Mainstream

Brand: Mitsubishi

Model: ASX

Price: €18,900

Year: 2020

Type of car: Compact SUV

Mileage: 56,800 km

Fuel: Gasoline

Transmission: Manual

Colour: Red

Description:

The Mitsubishi ASX is a compact SUV designed for everyday practicality and straightforward ownership. Its gasoline engine and manual transmission offer a simple and generally affordable driving setup. The compact SUV format provides elevated seating and improved visibility without the bulk of larger vehicles. It is suitable for drivers seeking a practical and reliable daily car that can handle both city commuting and occasional longer trips. The ASX appeals to buyers who prioritize usability and manageable operating costs over premium features.

Ideal for:

Budget-conscious SUV buyers, commuters, small households, drivers preferring manual transmission.

Key advantages:

- Practical compact SUV size
- Simple gasoline + manual setup
- Elevated driving position
- Balanced city and highway usability
- Competitive pricing in segment

Market segment:

Compact SUV / Budget-mid

Brand: Mitsubishi

Model: L200

Price: €31,500

Year: 2021

Type of car: Pickup / 4x4

Mileage: 49,200 km

Fuel: Diesel

Transmission: Automatic

Colour: White

Description:

The Mitsubishi L200 is a pickup truck designed for durability and utility, particularly suited to work-related or outdoor applications. The diesel engine provides strong torque for carrying loads or towing, while the automatic transmission enhances ease of use in daily driving scenarios. As a pickup, it offers significant cargo capability compared to traditional SUVs, making it suitable for professional or lifestyle use requiring equipment transport. It can also serve as a robust everyday vehicle for drivers who value practicality and rugged design.

Ideal for:

Work-related driving, outdoor enthusiasts, drivers needing cargo capacity, mixed on-road and utility use.

Key advantages:

- Strong diesel torque

- High cargo and load capacity
- Automatic transmission convenience
- Rugged and durable design
- Suitable for professional and lifestyle use

Market segment:
Pickup / Utility 4x4

Brand: Subaru
Model: XV AWD
Price: €23,700
Year: 2019
Type of car: SUV / 4x4
Mileage: 68,100 km
Fuel: Gasoline
Transmission: Automatic
Colour: Dark Blue

Description:

The Subaru XV AWD is a compact SUV designed for drivers who value stability and all-wheel-drive confidence. The gasoline engine combined with automatic transmission makes it comfortable for daily commuting, while the AWD system enhances traction in varied weather conditions. It is particularly appealing to drivers in regions with rain, snow, or uneven roads. The compact dimensions make it manageable in urban settings, yet it retains SUV practicality for everyday tasks and occasional trips.

Ideal for:

Drivers in varied climates, commuters, outdoor-oriented buyers, small families.

Key advantages:

- All-wheel-drive stability
- Automatic driving comfort
- Compact yet versatile SUV format
- Balanced city and highway usability
- Reliable everyday performance

Market segment:
Compact AWD SUV / Mainstream

Perfect — continuing with cars **51–60** in the enriched format.

Brand: Subaru
Model: Outback
Price: €29,900
Year: 2021
Type of car: Estate / AWD
Mileage: 45,600 km
Fuel: Gasoline
Transmission: Automatic
Colour: Green

Description:

The Subaru Outback is a versatile estate with all-wheel-drive capability, designed for drivers who want practicality with added confidence in varied road conditions. Its gasoline engine and automatic transmission provide smooth everyday usability, while the AWD system enhances traction during rain or light off-road use. The estate body style offers generous cargo space without the height of a traditional SUV, making it appealing to families and outdoor-oriented buyers. With moderate mileage for its year, it presents a balanced option for drivers who want long-distance comfort and versatility in one vehicle.

Ideal for:

Families, drivers in mixed climates, outdoor enthusiasts, long-distance commuters.

Key advantages:

- All-wheel-drive stability
- Spacious estate cargo area
- Comfortable automatic driving
- Suitable for varied road conditions
- Balanced practicality and efficiency

Hybrid SUV / Mainstream

Brand: Alfa Romeo
Model: Giulia Super
Price: €27,600
Year: 2019
Type of car: Saloon
Mileage: 73,400 km
Fuel: Gasoline
Transmission: Automatic
Colour: Alfa Red

Description:

The Alfa Romeo Giulia Super is a sporty saloon designed for drivers who value dynamic handling and distinctive design. Its gasoline engine paired with an automatic transmission offers a balance between performance and daily comfort. The Giulia is often chosen for its engaging steering feel and stylish exterior, appealing to buyers seeking something more characterful than conventional executive saloons. It remains practical enough for commuting and longer journeys while delivering a more driver-focused experience compared to comfort-oriented competitors.

Ideal for:

Driving enthusiasts, professionals, style-conscious buyers, daily commuters wanting sporty feel.

Key advantages:

- Engaging driving dynamics
- Distinctive Italian styling
- Automatic transmission convenience
- Balanced performance and comfort
- Sport-oriented saloon character

Market segment:

Sport saloon / Premium mid-range

Brand: Alfa Romeo

Model: Stelvio Veloce

Price: €35,900

Year: 2021

Type of car: SUV

Mileage: 41,200 km

Fuel: Gasoline

Transmission: Automatic

Colour: Black

Description:

The Alfa Romeo Stelvio Veloce is a sporty SUV that emphasizes dynamic handling and expressive design within a practical format. The gasoline engine and automatic transmission provide smooth power delivery, while the SUV layout ensures adequate passenger and cargo space. The Stelvio appeals to drivers who want the elevated seating position of an SUV but prefer a more performance-oriented driving feel. It is particularly suitable for buyers who value brand character and driving engagement alongside everyday usability.

Ideal for:

Sport-focused SUV buyers, professionals, drivers wanting premium style and dynamic feel.

Key advantages:

- Sport-oriented SUV handling
- Automatic transmission comfort
- Expressive design and road presence
- Practical interior for daily use
- Balanced performance profile

Colour: White Pearl

Description:

The Lexus NX 350h is a mid-size hybrid SUV designed to combine efficiency with premium comfort. Its hybrid system helps lower fuel consumption in mixed driving conditions, while the automatic transmission ensures smooth everyday usability. With relatively low mileage for its year, it represents a modern and well-equipped option in the premium SUV segment. The NX provides ample interior space for passengers and cargo, making it suitable for families or professionals who need versatility without compromising comfort.

Ideal for:

Families, hybrid buyers, premium SUV customers, drivers seeking comfort and efficiency.

Key advantages:

- Efficient hybrid drivetrain
- Spacious and refined interior
- Automatic transmission comfort
- Low mileage for its year
- Balanced daily practicality

Market segment:
Premium mid-size hybrid SUV

Brand: Lexus
Model: ES 300h
Price: €36,500
Year: 2021
Type of car: Saloon

Mileage: 44,800 km
Fuel: Hybrid
Transmission: Automatic
Colour: Graphite Black

Description:

The Lexus ES 300h is an executive hybrid saloon focused on comfort and fuel efficiency. The hybrid powertrain reduces fuel consumption in daily use, while the automatic transmission provides a relaxed driving experience in both city and highway conditions. The ES is particularly appealing to drivers who prioritize ride comfort and interior refinement over sporty handling. With moderate mileage and a strong reliability reputation, it is well suited to professionals seeking a comfortable and efficient long-distance vehicle.

Ideal for:

Executives, long-distance commuters, comfort-focused drivers, hybrid-conscious buyers.

Key advantages:

- Hybrid efficiency
- Smooth and quiet ride
- Spacious executive cabin
- Automatic driving comfort
- Strong reliability positioning

Market segment:

Executive hybrid saloon

Brand: Jaguar
Model: XE R-Dynamic
Price: €28,400
Year: 2019
Type of car: Saloon
Mileage: 72,600 km
Fuel: Diesel
Transmission: Automatic
Colour: Firenze Red

Description:

The Jaguar XE R-Dynamic is a sporty executive saloon that combines distinctive styling with efficient diesel performance. The diesel engine supports economical long-distance driving, while the automatic transmission ensures comfort in traffic and highway use. The R-Dynamic designation emphasizes a more dynamic aesthetic and driving character

compared to standard trims. It is a strong option for buyers seeking an alternative to mainstream executive saloons while maintaining practicality for daily commuting and professional use.

Ideal for:

Business users, long-distance drivers, style-conscious professionals, executive car buyers.

Key advantages:

- Efficient diesel engine
- Automatic transmission comfort
- Distinctive sporty design
- Suitable for motorway driving
- Executive saloon practicality

Market segment:

Sport executive saloon

Brand: Jaguar

Model: F-Pace

Price: €39,700

Year: 2020

Type of car: SUV

Mileage: 59,300 km

Fuel: Diesel

Transmission: Automatic

Colour: British Racing Green

Description:

The Jaguar F-Pace is a premium SUV offering a combination of space, comfort, and distinctive British styling. Its diesel engine provides strong torque and efficiency for longer journeys, while the automatic transmission enhances everyday usability. The F-Pace appeals to drivers who want SUV practicality with a more dynamic and premium feel than mainstream alternatives. It suits families and professionals who value design and driving character alongside interior versatility.

Ideal for:

Families, premium SUV buyers, long-distance commuters, style-oriented drivers.

Key advantages:

- Diesel efficiency for motorway travel
- Automatic transmission comfort
- Spacious SUV practicality
- Distinctive premium design
- Balanced daily usability

Market segment:

Premium mid-size SUV

Brand: Jaguar

Model: I-Pace

Price: €45,900

Year: 2021

Type of car: Electric SUV

Mileage: 41,200 km

Fuel: Electric

Transmission: Automatic

Colour: Grey

Description:

The Jaguar I-Pace is a fully electric SUV that combines premium comfort with electric mobility. Its electric drivetrain provides smooth acceleration and quiet operation, while the automatic setup ensures effortless driving in urban and suburban environments. The SUV body style offers practical interior space, making it suitable for families transitioning to electric vehicles. With moderate mileage for its year, it stands as a strong option for buyers seeking a premium EV with distinctive styling.

Ideal for:

Premium EV buyers, families, environmentally conscious drivers, urban commuters.

Key advantages:

- Fully electric operation
- Smooth and quiet driving
- Practical SUV layout
- Premium brand positioning
- Suitable for daily commuting

Market segment:
Premium electric SUV

Brand: Cupra

Type of car: Electric Hatchback

Mileage: 26,500 km

Fuel: Electric

Transmission: Automatic

Colour: Aurora Blue

Description:

The Cupra Born is a fully electric hatchback designed to combine urban efficiency with sporty styling. Its electric powertrain provides smooth acceleration and quiet operation, making it suitable for daily commuting. The automatic setup simplifies driving in traffic, while the hatchback format ensures practicality for passengers and luggage. With relatively low mileage, it represents a modern EV option for buyers who want both sustainability and a distinctive design.

Ideal for:

Urban drivers, EV adopters, style-conscious commuters, environmentally focused buyers.

Key advantages:

- Fully electric operation
- Smooth automatic driving
- Compact and practical hatchback layout
- Modern sporty styling
- Low mileage for its year

Market segment:

Electric compact hatchback / Premium

Brand: Cupra

Model: Leon e-Hybrid

Price: €31,600

Year: 2021

Type of car: Hatchback

Mileage: 42,000 km

Fuel: Plug-in Hybrid

Transmission: Automatic

Colour: Copper

Description:

The Cupra Leon e-Hybrid is a plug-in hybrid hatchback combining electrified efficiency with sporty character. Its hybrid system can reduce fuel consumption for short trips when charged regularly, while still providing flexibility for longer journeys. The automatic transmission

ensures smooth daily driving, and the hatchback format offers practicality for everyday use. It appeals to buyers seeking a compact vehicle with performance-oriented styling and hybrid benefits.

Ideal for:

Hybrid-focused drivers, commuters with charging access, sporty compact buyers, urban + suburban use.

Key advantages:

- Plug-in hybrid efficiency
- Automatic transmission comfort
- Sport-oriented styling
- Practical hatchback format
- Balanced daily usability

Market segment:

Sport hybrid hatchback

Brand: Polestar

Model: Polestar 2 Long Range

Price: €39,400

Year: 2022

Type of car: Electric Fastback

Mileage: 31,900 km

Fuel: Electric

Transmission: Automatic

Colour: Snow White

Description:

The Polestar 2 Long Range is a fully electric fastback designed to combine modern Scandinavian styling with practical everyday usability. Its electric drivetrain delivers smooth and immediate acceleration, making it well suited for both city commuting and motorway travel. The automatic operation ensures effortless driving in traffic, while the fastback body style provides a balance between sleek design and usable cargo space. With relatively low mileage for its year, this model represents a contemporary option for buyers transitioning to premium electric mobility. It is particularly attractive to drivers who value clean design, sustainable positioning, and a refined driving experience.

Ideal for:

Premium EV buyers, urban commuters, environmentally conscious professionals, early adopters of electric mobility.

Key advantages:

- Fully electric long-range capability
- Smooth and quiet automatic driving
- Modern fastback design
- Practical for daily use
- Low mileage and recent model year

Market segment:

Premium electric fastback

Brand: Polestar

Model: Polestar 3

Price: €69,900

Year: 2023

Description:

The BYD Atto 3 is a compact electric SUV designed for efficient daily mobility and practical urban use. Its electric drivetrain ensures quiet, smooth driving, and the automatic setup enhances comfort in city traffic. The SUV format offers elevated seating and practical cargo space, making it suitable for small families or commuters seeking extra versatility. With moderate mileage and a recent model year, it represents an accessible entry into electric SUV ownership for buyers prioritizing efficiency and manageable operating costs.

Ideal for:

Urban families, first-time EV buyers, commuters, drivers seeking compact SUV practicality.

Key advantages:

- Fully electric efficiency
- Smooth automatic driving
- Practical compact SUV layout
- Modern model year
- Suitable for daily commuting

Market segment:
Electric compact SUV / Mainstream

Brand: BYD
Model: Seal
Price: €37,800
Year: 2023
Type of car: Electric Saloon
Mileage: 19,500 km
Fuel: Electric
Transmission: Automatic
Colour: White

Description:

The BYD Seal is a fully electric saloon focused on modern design and efficient performance. Its electric powertrain provides quiet acceleration and smooth driving characteristics, suitable for both city and highway travel. The saloon layout offers a stable ride and usable passenger space, appealing to professionals who prefer a lower vehicle stance compared to SUVs. With relatively low mileage and a recent year, it presents a contemporary alternative in the growing electric saloon segment.

Ideal for:

Electric saloon buyers, urban professionals, environmentally conscious drivers, daily commuters.

Key advantages:

- Fully electric drivetrain
- Smooth and quiet ride
- Modern saloon design
- Low mileage and recent year
- Suitable for mixed driving

Market segment:
Electric executive saloon

Brand: MG
Model: ZS EV
Price: €20,400
Year: 2021

Type of car: Electric SUV

Mileage: 46,300 km

Fuel: Electric

Transmission: Automatic

Colour: Red

Description:

The MG ZS EV is an affordable electric SUV designed for everyday practicality and urban efficiency. Its fully electric powertrain reduces fuel costs and offers smooth, automatic driving, particularly suited for city commuting. The SUV body style provides elevated seating and usable cargo space, making it practical for small families or daily errands. With moderate mileage for its year, it stands as a value-oriented option in the electric SUV segment, appealing to buyers entering EV ownership without moving into premium pricing levels.

Ideal for:

Budget-focused EV buyers, urban commuters, small families, environmentally conscious drivers.

Key advantages:

- Affordable entry into electric SUV ownership
- Smooth automatic operation
- Practical SUV layout
- Reduced fuel and maintenance costs
- Suitable for daily city use

Market segment:

Electric SUV / Budget-mid

Brand: MG

Model: MG4 Electric

Price: €22,900

Year: 2022

Type of car: Electric Hatchback

Mileage: 28,600 km

Fuel: Electric

Luxury electric SUV

Brand: Ferrari

Model: Portofino

Price: €189,000

Year: 2019

Type of car: Luxury Sports Convertible

Mileage: 21,500 km

Fuel: Gasoline

Transmission: Automatic

Colour: Rosso Corsa

Description:

The Ferrari Portofino is a luxury sports convertible built around performance and exclusivity. Its gasoline engine delivers strong acceleration and an engaging driving experience, while the automatic transmission allows for both relaxed cruising and dynamic driving when desired. Designed primarily for enjoyment and lifestyle appeal, the Portofino is best suited for weekend drives and leisure travel rather than everyday commuting. With relatively low mileage, it represents a high-end option in the performance convertible segment for buyers seeking prestige, distinctive styling, and emotional driving character.

Ideal for:

Sports car collectors, luxury buyers, weekend drivers, enthusiasts seeking performance and exclusivity.

Key advantages:

- High-performance gasoline engine
- Convertible open-top experience
- Automatic transmission flexibility
- Exclusive luxury positioning
- Low mileage

Market segment:

Luxury sports convertible

Brand: Lamborghini

Model: Urus

Price: €245,000

Year: 2021

Type of car: Luxury Performance SUV

Mileage: 28,900 km

Fuel: Gasoline

Transmission: Automatic

Colour: Yellow

Description:

The Lamborghini Urus is a high-performance luxury SUV combining supercar heritage with SUV practicality. Its gasoline engine delivers strong acceleration, while the automatic transmission ensures both smooth cruising and rapid response when needed. The Urus stands out for its bold design and commanding road presence, appealing to buyers who want a performance-oriented vehicle with everyday usability. Despite its SUV layout, it emphasizes dynamic capability and exclusivity over conventional family transport.

Ideal for:

Luxury performance buyers, collectors, high-end SUV shoppers, drivers wanting exclusivity and power.

Key advantages:

- Strong performance focus

- Automatic transmission convenience
- Distinctive and bold styling
- SUV practicality with performance identity
- Exclusive brand positioning

Market segment:

Ultra-luxury performance SUV

Brand: Maserati

Model: Ghibli

Price: €52,700

Year: 2020

Brand: Toyota
Model: Corolla 1.8 Hybrid Advance
Price: €21,900
Year: 2021
Type of car: Hatchback
Mileage: 48,500 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: White pearl

Description:

The Toyota Corolla 1.8 Hybrid Advance is one of the most popular hybrid hatchbacks in the Spanish market, known for its low fuel consumption and smooth automatic driving experience. Its hybrid system is particularly efficient in urban environments such as Madrid, Barcelona, or Valencia, where stop-and-go traffic benefits from regenerative braking. The Advance trim typically includes enhanced comfort and connectivity features compared to base versions. With moderate mileage and a strong reputation for reliability, this model suits drivers seeking predictable running costs and long-term durability in everyday commuting and highway travel.

Ideal for:

Urban commuters, daily drivers, eco-conscious buyers, professionals, mixed city-highway use.

Key advantages:

- Very low fuel consumption in urban driving
- Smooth automatic hybrid transmission
- Strong reliability reputation in Spain
- Practical hatchback layout
- High resale value in Spanish market

Market segment:
Compact hybrid hatchback / Mainstream Spain

Brand: Toyota
Model: C-HR 2.0 Hybrid GR Sport
Price: €26,800
Year: 2022
Type of car: Compact SUV
Mileage: 32,400 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Graphite Grey

Description:

The Toyota C-HR 2.0 Hybrid GR Sport is a stylish compact SUV widely seen across Spanish urban areas. The 2.0 hybrid engine offers stronger performance compared to the 1.8 version while maintaining competitive fuel efficiency. The GR Sport trim emphasizes sportier aesthetics and a more dynamic appearance, making it appealing to younger drivers and professionals. Its compact SUV dimensions make it practical for city driving while still offering elevated seating and versatile interior space. This model is well suited for drivers who want hybrid efficiency combined with a distinctive design.

Ideal for:

Urban professionals, young drivers, hybrid SUV buyers, style-conscious commuters.

Key advantages:

- Efficient yet responsive hybrid system
- Automatic transmission comfort
- Elevated SUV driving position
- Popular model in Spain with strong resale
- Modern sporty styling

Market segment:

Compact hybrid SUV / Mid-range Spain

Brand: Toyota
Model: RAV4 2.5 Hybrid Style
Price: €29,500
Year: 2020
Type of car: Medium SUV
Mileage: 67,800 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Dark Blue

Description:

The Toyota RAV4 2.5 Hybrid Style is a mid-size SUV highly valued in the Spanish market for its balance of space, efficiency, and reliability. The 2.5 hybrid engine provides smooth performance while maintaining competitive fuel consumption for its size. The Style trim typically focuses on comfort and aesthetics, making it attractive to families. With ample rear-seat room and practical cargo capacity, it is suitable for long trips across Spain as well as daily commuting. Toyota's hybrid reputation ensures strong resale value and predictable maintenance costs.

Ideal for:

Families, long-distance travelers, hybrid SUV buyers, suburban drivers.

Key advantages:

- Spacious family-oriented interior
- Reliable and efficient hybrid system
- Comfortable automatic transmission
- Strong resale demand in Spain
- Balanced city and motorway usability

Market segment:

Family hybrid SUV / Mid-range Spain

Brand: Toyota

Model: Yaris 1.5 Hybrid Active

Price: €17,400

Year: 2021

Type of car: City Car / Hatchback

Mileage: 36,900 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Red Emotion

Description:

The Toyota Yaris 1.5 Hybrid Active is a compact hybrid hatchback ideal for urban Spanish environments. Its small dimensions make it perfect for tight streets and parking in dense city centers, while the hybrid system significantly reduces fuel consumption in daily traffic. The automatic transmission simplifies driving in congested areas. The Active trim focuses on practicality and efficiency, making it a popular choice among first-time buyers and commuters. With relatively low mileage, it offers a modern and economical option in Spain's city car segment.

Ideal for:

City commuters, first-time buyers, students, urban professionals.

Key advantages:

- Excellent fuel efficiency in city use
- Easy automatic driving
- Compact size for urban parking
- Low maintenance costs
- Strong popularity in Spain

Market segment:

Urban hybrid hatchback / Budget-mid Spain

Brand: Toyota

Model: Camry 2.5 Hybrid Luxury

Price: €31,200

Year: 2020

Type of car: Saloon

Mileage: 58,200 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Black

Description:

The Toyota Camry 2.5 Hybrid Luxury is an executive saloon positioned above the Corolla in Spain, offering more interior space and comfort. Its hybrid drivetrain provides smooth, quiet operation and efficient long-distance cruising. The Luxury trim emphasizes comfort and refinement, appealing to business users and professional drivers. The saloon format ensures a stable ride on motorways, making it well suited for frequent intercity travel across Spain. It is an attractive alternative to European executive sedans for buyers prioritizing reliability and efficiency.

Ideal for:

Executives, business commuters, long-distance drivers, comfort-focused buyers.

Key advantages:

- Spacious executive interior
- Efficient and smooth hybrid drivetrain

- Automatic comfort in traffic
- Strong motorway stability
- Reliable long-term ownership

Market segment:

Executive hybrid saloon / Upper mid Spain

Brand: Toyota

Model: Corolla Touring Sports 1.8 Hybrid Style

Price: €23,500

Year: 2022

Type of car: Estate / Wagon

Mileage: 29,700 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Metallic grey

Description:

The Toyota Corolla Touring Sports 1.8 Hybrid Style is a practical estate widely appreciated in Spain for its cargo space and efficiency. The hybrid system delivers low consumption, especially in urban and suburban driving. The Touring Sports body style offers generous luggage capacity, making it suitable for families or professionals carrying equipment. With low mileage and a recent year, it represents a strong value option in the hybrid wagon category.

Ideal for:

Families, professionals needing cargo space, hybrid-focused buyers, daily commuters.

Key advantages:

- Large boot capacity
- Hybrid fuel efficiency
- Automatic transmission convenience
- Low mileage
- Strong reliability reputation

Market segment:

Hybrid family estate / Mid-range Spain

Brand: Toyota

Model: Prius 1.8 Hybrid Business

Price: €19,900

Year: 2019

Type of car: Hatchback

Mileage: 74,300 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: White

Description:

The Toyota Prius 1.8 Hybrid Business remains one of the most recognized hybrid models in Spain, especially among taxi fleets and professional drivers. Its hybrid system is optimized for low urban fuel consumption, and the automatic transmission enhances comfort in stop-and-go traffic. The Prius is known for durability and efficient long-term operation, making it attractive for high-mileage drivers. Despite its distinctive design, it remains a practical and economical solution for daily transport.

Ideal for:

High-mileage drivers, taxi professionals, eco-conscious commuters, urban users.

Key advantages:

- Proven hybrid efficiency
- Low running costs
- Automatic driving comfort
- Durable and reliable platform
- Popular in Spanish fleet market

Market segment:

Hybrid efficiency hatchback / Fleet Spain

Brand: Toyota

Model: Proace Verso 2.0D Family

Price: €27,800

Year: 2021

Type of car: MPV / Van

Mileage: 65,000 km

Fuel: Diesel

Transmission: Manual

Colour: Light Grey

Description:

The Toyota Proace Verso 2.0D Family is a spacious MPV designed for larger families or professional passenger transport in Spain. Its diesel engine is efficient for longer distances, and the manual transmission keeps maintenance straightforward. With a large interior capacity, it is ideal for transporting multiple passengers or bulky cargo. It is often used for family travel, tourism-related activities, or shuttle services, offering practicality over sportiness.

Ideal for:

Large families, tourism operators, shuttle services, long-distance travel.

Key advantages:

- High passenger capacity
- Efficient diesel for long routes
- Practical interior layout
- Suitable for professional use
- Strong durability

Market segment:

Family MPV / Commercial Spain

Brand: Toyota

Model: Hilux 2.8D 4x4 Invincible

Price: €34,900

Year: 2020

Type of car: Pickup / 4x4

Mileage: 72,000 km

Fuel: Diesel

Transmission: Automatic

Colour: White

Description:

The Toyota Hilux 2.8D 4x4 Invincible is a durable pickup widely used across Spain for work and rural activities. Its diesel engine provides strong torque for load carrying and towing, while the automatic transmission simplifies daily operation. The 4x4 capability makes it suitable for agricultural, construction, and off-road environments. It is valued for its reliability and resilience, making it a common choice in professional and rural contexts.

Ideal for:

Rural drivers, construction professionals, agricultural use, off-road applications.

Key advantages:

- Strong diesel torque
- 4x4 off-road capability
- Automatic convenience
- Durable and reliable build
- Suitable for heavy-duty use

Market segment:

Utility pickup / Professional Spain

Brand: Toyota

Model: Corolla 1.8 Hybrid Advance

Price: €21,900

Year: 2021

Type of car: Hatchback

Mileage: 48,500 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Pearl White

Description:

The Toyota Corolla 1.8 Hybrid Advance is a strong all-rounder for Spanish urban and motorway driving, offering a smooth automatic hybrid system that shines in stop-and-go traffic. It suits commuters who want low fuel consumption without needing to plug in, while still being comfortable for longer trips between cities. The hatchback format keeps it practical for everyday errands and compact enough for parking in dense areas. Toyota's hybrid reputation also supports predictable ownership costs and strong resale demand in Spain's used market. This is a sensible choice for drivers prioritizing efficiency, reliability, and an easy daily driving experience.

Ideal for:

Urban commuting, mixed city/highway driving, efficiency-focused buyers, daily family use.

Key advantages:

- Low fuel consumption in traffic
- Smooth automatic hybrid driving
- Strong reliability reputation
- Practical hatchback versatility
- High resale demand in Spain

Market segment:

Compact hybrid hatchback / Mainstream Spain

Brand: Toyota

Model: Yaris 1.5 Hybrid Style

Price: €18,400

Year: 2022

Type of car: City Car / Hatchback

Mileage: 29,300 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Metallic Grey

Description:

The Toyota Yaris 1.5 Hybrid Style is built for efficient city life, making it a great fit for Spanish urban centers where traffic and parking are daily realities. Its hybrid system reduces fuel use during short trips and frequent stops, and the automatic transmission keeps driving stress-free. The compact footprint makes it easy to place in tight spaces, while the interior remains practical for everyday commuting and errands. With a newer year and relatively low mileage, it offers a modern feel and dependable ownership profile. It's a smart option for drivers who want minimal running costs and straightforward daily usability.

Ideal for:

City commuters, first-time buyers, students, short daily trips, urban professionals.

Key advantages:

- Excellent city efficiency (hybrid)
- Easy automatic driving in traffic
- Compact size for parking
- Low running and maintenance costs

- Modern model year and mileage

Market segment:

Urban hybrid hatchback / Budget-mid Spain

Brand: Toyota

Model: C-HR 2.0 Hybrid GR Sport

Price: €26,900

Year: 2022

Type of car: Compact SUV

Mileage: 34,600 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Deep Black

Description:

The Toyota C-HR 2.0 Hybrid GR Sport combines a sporty, modern look with hybrid efficiency that suits Spain's mix of city and ring-road driving. The automatic hybrid setup delivers smooth acceleration and low fuel consumption without requiring charging infrastructure. Its compact SUV format provides a higher seating position and everyday practicality, while remaining manageable for urban parking. This model works well for drivers who want a distinctive design, efficient daily running, and a comfortable experience for short trips and weekend getaways. Toyota's strong hybrid presence in Spain supports resale stability and predictable ownership.

Ideal for:

Urban professionals, style-conscious drivers, hybrid SUV buyers, daily commuting, weekend travel.

Key advantages:

- Efficient 2.0 hybrid performance
- Comfortable automatic driving
- Compact SUV practicality
- Strong resale demand in Spain
- Distinctive sporty styling

Market segment:

Compact hybrid SUV / Mid-range Spain

Brand: Toyota
Model: RAV4 2.5 Hybrid Style
Price: €29,700
Year: 2020
Type of car: Medium SUV
Mileage: 72,400 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Dark Blue

Description:

The Toyota RAV4 2.5 Hybrid Style is a family-friendly SUV designed for drivers who need space and comfort without accepting high fuel consumption. Its hybrid drivetrain performs especially well in mixed driving—urban segments around Spanish cities plus longer motorway routes—delivering a relaxed, smooth automatic experience. The cabin is spacious, making it practical for families, and the SUV body style supports day-to-day flexibility for shopping, school runs, and travel. With Toyota's reputation for reliability and a strong hybrid used market in Spain, it offers stable ownership expectations and strong resale potential. It's a solid "one car for everything" option.

Ideal for:

Families, long-distance travel, mixed city/highway drivers, SUV buyers prioritizing efficiency.

Key advantages:

- Spacious family-oriented interior
- Efficient hybrid for mixed use
- Smooth automatic transmission
- Strong reliability and resale
- Comfortable long-distance cruising

Market segment:

Family hybrid SUV / Mid-range Spain

Brand: Toyota
Model: Corolla Touring Sports 1.8 Hybrid Style
Price: €23,900
Year: 2022
Type of car: Estate / Wagon
Mileage: 32,800 km
Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Silver Metallic

Description:

The Corolla Touring Sports Hybrid is a practical estate that suits Spanish families and professionals who want more cargo capacity than a hatchback but prefer a lower, stable driving feel compared to an SUV. Its hybrid system supports low consumption in urban and suburban traffic, while remaining comfortable and efficient on motorway trips. The automatic transmission makes commuting easy, and the estate body style offers a large boot for luggage, sports equipment, or work materials. With a recent year and low mileage, it's a strong option for drivers who want a reliable hybrid with real practicality for everyday life.

Ideal for:

Families needing boot space, commuters, frequent road trips, hybrid buyers, professionals carrying equipment.

Key advantages:

- Large boot and estate practicality
- Hybrid efficiency in mixed driving
- Smooth automatic driving
- Strong reliability profile
- Modern year and mileage

Market segment:

Hybrid family estate / Mid-range Spain

Brand: Toyota

Model: Camry 2.5 Hybrid Luxury

Price: €31,500

Year: 2020

Type of car: Saloon

Mileage: 61,200 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Black

Description:

The Toyota Camry Hybrid is an executive saloon focused on comfort, smoothness, and efficiency—well suited to long Spanish motorway trips between cities. The hybrid drivetrain provides relaxed performance and lower fuel consumption than a comparable non-hybrid executive car, especially in mixed routes. The automatic transmission supports effortless

daily driving, while the saloon format provides a stable, quiet ride that suits business users and long-distance commuters. For buyers who value reliability and predictable ownership more than a sporty feel, the Camry offers a strong alternative to traditional European executive sedans.

Ideal for:

Business commuters, long-distance drivers, comfort-focused buyers, hybrid saloon shoppers.

Key advantages:

- Comfortable executive ride
- Efficient hybrid drivetrain
- Smooth automatic operation
- Strong reliability reputation
- Excellent motorway stability

Market segment:

Executive hybrid saloon / Upper mid Spain

Brand: Lexus

Model: NX 350h Premium

Price: €45,900

Year: 2022

Type of car: SUV

Mileage: 28,900 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Pearl White

Description:

The Lexus NX 350h is a premium hybrid SUV designed for buyers who want refinement, comfort, and low-stress ownership. Its hybrid system works well in Spanish urban traffic while remaining smooth and efficient on longer motorway trips. The automatic transmission enhances daily comfort, and the SUV body style provides practical space for passengers and luggage. Lexus' reputation for reliability and quiet operation is attractive for drivers who prioritize calm, premium commuting and long-term durability. With a newer year and low mileage, this vehicle fits buyers seeking a premium hybrid that balances efficiency with everyday versatility.

Ideal for:

Premium SUV buyers, families, urban professionals, long-distance commuters, hybrid-focused drivers.

Key advantages:

- Premium comfort and quietness
- Efficient hybrid for mixed routes
- Smooth automatic driving
- Practical SUV interior space
- Strong reliability positioning

Market segment:

Premium mid-size hybrid SUV / Spain

Brand: Lexus

Model: UX 250h Business

Price: €29,900

Year: 2021

Type of car: Compact SUV

Mileage: 56,400 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Metallic Grey

Description:

The Lexus UX 250h Business is a compact premium hybrid SUV suited to daily commuting in Spanish cities, where its hybrid system helps reduce consumption and the automatic driving experience feels smooth and easy. It offers the higher seating position many drivers want, while remaining compact enough for urban parking. Lexus also appeals to buyers who prioritize refined comfort, quiet operation, and reliable ownership over sporty handling. As a premium compact SUV, it works well for professionals and couples who want efficient daily mobility and a high-quality cabin environment.

Ideal for:

Urban professionals, premium compact SUV buyers, efficiency-focused commuters, city driving.

Key advantages:

- Hybrid efficiency in traffic

- Smooth automatic operation
- Premium interior feel
- Compact size for urban use
- Strong reliability reputation

Market segment:

Premium compact hybrid SUV / Spain

Brand: Honda

Model: CR-V 2.0 Hybrid Elegance

Price: €31,900

Year: 2020

Type of car: SUV

Mileage: 64,700 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Dark Grey

Description:

The Honda CR-V Hybrid is a practical family SUV built for comfort, space, and efficient everyday use. Its hybrid drivetrain supports lower consumption in mixed driving, particularly around urban areas and suburban commutes, while remaining comfortable for long motorway trips across Spain. The automatic transmission makes daily traffic easier, and the spacious cabin suits family routines and travel. This model appeals to buyers who want SUV practicality with improved efficiency but prefer a non-plug-in hybrid that requires no charging habits.

Ideal for:

Families, suburban commuters, long-distance travel, hybrid SUV buyers, daily multi-purpose use.

Key advantages:

- Spacious family interior
- Efficient hybrid in mixed driving
- Smooth automatic comfort
- Practical SUV versatility
- Strong everyday usability

Market segment:
Family hybrid SUV / Mainstream Spain

Brand: Hyundai
Model: Tucson 1.6 Hybrid Maxx
Price: €28,600
Year: 2022
Type of car: SUV
Mileage: 39,800 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: White

Description:

The Hyundai Tucson Hybrid is a popular Spanish-market SUV choice for buyers who want modern styling, good practicality, and hybrid efficiency without moving to a plug-in. The automatic hybrid drivetrain suits stop-and-go city traffic and suburban routes, while the SUV interior provides space for families and daily errands. The Tucson is a strong option for drivers who want a contemporary feel and a comfortable driving position, while keeping running costs under control. With a recent year and moderate mileage, it fits buyers looking for a modern family SUV that works well for commuting and weekend travel.

Ideal for:

Families, hybrid SUV shoppers, commuters, mixed urban and highway driving, daily practicality.

Key advantages:

- Hybrid efficiency without charging
- Comfortable automatic driving
- Spacious SUV layout
- Modern, popular model in Spain
- Versatile for daily and weekend use

Market segment:
Family hybrid SUV / Mid-range Spain

Brand: Kia
Model: Sportage 1.6 Hybrid Drive
Price: €27,900

Year: 2021

Type of car: SUV

Mileage: 52,100 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Blue Metallic

Description:

The Kia Sportage Hybrid is a practical SUV designed for drivers who want a comfortable, modern daily vehicle with improved fuel efficiency. The automatic hybrid system performs well in Spanish city driving and ring-road commuting, while the SUV body style provides the space families often need. It's a solid option for drivers who want a popular, mainstream SUV that balances comfort and operating costs. With a reasonable mileage for its year, it suits buyers who value reliability, practicality, and an easy day-to-day driving experience without relying on charging infrastructure.

Ideal for:

Families, daily commuting, hybrid SUV buyers, suburban drivers, mixed driving conditions.

Key advantages:

- Hybrid efficiency for everyday routes
- Automatic transmission comfort
- Spacious cabin and boot
- Strong mainstream SUV practicality
- Good balance of value and usability

Market segment:

Family hybrid SUV / Mid-range Spain

Brand: Renault

Model: Captur E-Tech Hybrid Techno

Price: €21,500

Year: 2022

Type of car: Compact SUV

Mileage: 28,900 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Red

Description:

The Renault Captur E-Tech Hybrid is a compact SUV well suited to Spain's urban and

suburban environments, offering hybrid efficiency in day-to-day commuting with a simple automatic driving experience. Its size makes it easy to live with in cities, while still providing a practical cabin and elevated seating position. As a non-plug-in hybrid, it doesn't require charging habits and is convenient for drivers who want lower consumption without changing routines. With a recent year and low mileage, it fits buyers looking for a modern, efficient compact SUV for daily transport and occasional weekend travel.

Ideal for:

City commuters, small families, compact SUV buyers, efficiency-focused drivers, daily mixed routes.

Key advantages:

- Efficient hybrid for city traffic
- Easy automatic driving
- Compact SUV practicality
- Recent model year and mileage
- Great fit for urban Spain

Market segment:

Compact hybrid SUV / Budget-mid Spain

Brand: Renault

Model: Austral E-Tech Full Hybrid

Price: €29,900

Year: 2023

Type of car: SUV

Mileage: 21,600 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Grey

Description:

The Renault Austral E-Tech Full Hybrid is a modern hybrid SUV designed to deliver low consumption in everyday driving while maintaining comfort for motorway travel. Its automatic hybrid system supports efficient commuting in Spanish urban areas and suburban routes, while offering a practical interior for families. The SUV format gives a comfortable seating position and daily versatility, making it suitable for drivers who want a newer vehicle with a contemporary feel. With low mileage and a recent year, it is a strong thesis-demo example of a mainstream hybrid SUV aligned with current Spanish buyer demand.

Ideal for:

Families, commuters, drivers wanting a newer hybrid SUV, mixed city/highway use.

Key advantages:

- Modern full-hybrid efficiency
- Comfortable automatic operation
- Practical SUV interior space
- Recent model year and low mileage
- Strong fit for Spanish market demand

Market segment:

Modern hybrid SUV / Mid-range Spain

Brand: Nissan

Model: Qashqai 1.3 Mild Hybrid N-Connecta

Price: €25,400

Year: 2022

Type of car: SUV

Mileage: 44,900 km

Fuel: Mild Hybrid (Gasoline + Electric)

Transmission: Manual

Colour: Dark Grey

Description:

The Nissan Qashqai Mild Hybrid is a well-known Spanish-market SUV choice, offering a familiar and practical driving experience with mild-hybrid efficiency benefits. Its mild-hybrid system supports smoother stop-start operation and can help reduce consumption in certain driving conditions, while keeping the driving and maintenance experience straightforward. The SUV body style provides everyday space and a higher seating position, making it suitable for family routines and commuting. With a manual gearbox, it will appeal to drivers who prefer more control and a simpler mechanical feel while still benefiting from modern electrification trends.

Ideal for:

Families, commuters, mainstream SUV buyers, drivers who prefer manual, mixed urban and motorway use.

Key advantages:

- Popular SUV segment fit in Spain

- Mild-hybrid efficiency support
- Practical daily interior space
- Manual transmission control
- Balanced commuting comfort

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Silver

Description:

The Ford Kuga Full Hybrid is a practical SUV focused on daily comfort and efficiency. Its hybrid system reduces fuel consumption in mixed driving and is especially helpful for Spanish urban commuting and suburban routes. The automatic transmission makes it easy to drive in traffic, while the SUV format provides the space and flexibility many families need. This model is a good fit for buyers who want hybrid benefits without needing a plug-in charging routine. With typical mileage for its year, it remains a realistic dealership option offering balanced value, comfort, and practicality.

Ideal for:

Families, suburban commuters, hybrid SUV buyers, daily mixed driving, practical household use.

Key advantages:

- Efficient hybrid for everyday use
- Smooth automatic driving
- Spacious SUV practicality
- Comfortable for longer trips
- No charging required

Market segment:

Description:

The Hyundai Kona Hybrid is a compact SUV designed for efficient everyday use, particularly suited to Spanish city life and suburban commuting. Its automatic hybrid system reduces fuel consumption in stop-and-go driving and keeps daily use simple. The compact SUV format balances a higher seating position with manageable size for parking. With a modern year and practical mileage, it's an excellent dealership option for drivers who want an efficient compact SUV that is easy to live with and versatile for short trips, commuting, and occasional weekend travel.

Ideal for:

Urban commuters, compact SUV buyers, hybrid shoppers, daily city use, small households.

Key advantages:

- Hybrid efficiency in urban traffic
- Smooth automatic operation
- Compact SUV practicality
- Modern year and mileage
- Easy daily usability

Market segment:
Compact hybrid SUV / Mid-range Spain

Brand: Kia
Model: Niro Hybrid Drive
Price: €23,800
Year: 2021
Type of car: Crossover
Mileage: 55,700 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: White

Description:

The Kia Niro Hybrid is a practical crossover designed specifically around efficiency and daily usability. It fits Spanish drivers who want a vehicle that is easy in the city, comfortable on the motorway, and economical to run without needing to charge. The automatic hybrid drivetrain is well suited to everyday commuting, while the crossover body style offers a practical seating position and good usability for passengers and luggage. This model works well for buyers looking for a no-drama, low-running-cost vehicle that still offers modern electrified driving benefits.

Ideal for:

Commuters, efficiency-focused buyers, small families, mixed city/highway routes, urban drivers.

Key advantages:

- Efficient non-plug-in hybrid
- Smooth automatic driving
- Practical crossover usability
- Strong daily commuting fit
- Predictable running costs

Market segment:
Efficiency-focused hybrid crossover / Spain

Brand: Toyota
Model: Yaris Cross 1.5 Hybrid Adventure
Price: €24,900

Year: 2022

Type of car: Compact SUV

Mileage: 27,900 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Green

Description:

The Toyota Yaris Cross Hybrid is a compact SUV designed for Spanish urban mobility with added versatility for weekend travel. Its hybrid system delivers excellent efficiency in city traffic, while the SUV format provides a higher seating position and practical cabin flexibility. The automatic transmission makes it simple to drive in congested areas, and the compact size remains manageable for parking. With low mileage and a modern year, it's ideal for drivers who want a reliable hybrid SUV that fits both daily commuting and lifestyle needs without moving into a larger, more expensive segment.

Ideal for:

City commuters, small families, compact SUV buyers, hybrid-focused drivers, weekend travel.

Key advantages:

- Strong urban hybrid efficiency
- Easy automatic driving
- Compact SUV practicality
- Low mileage and modern year
- High resale demand in Spain

Market segment:

Urban hybrid compact SUV / Spain

Brand: Lexus

Model: ES 300h Executive

Price: €35,900

Year: 2020

Type of car: Saloon

Mileage: 62,600 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Dark Blue

Description:

The Lexus ES 300h is an executive hybrid saloon designed for comfort, quietness, and efficient long-distance travel. It suits Spanish professionals who spend time on motorways and want a relaxed driving experience with lower fuel consumption than a traditional non-hybrid executive car. The automatic hybrid drivetrain is smooth in urban driving and stable at speed, making it practical for mixed routes. This model is a strong thesis-demo example of premium efficiency: refined, comfortable, and well suited for drivers who prioritize calm commuting and predictable ownership.

Ideal for:

Business users, long-distance commuters, comfort-focused drivers, premium hybrid saloon buyers.

Key advantages:

- Quiet and comfortable executive ride
- Efficient hybrid for mixed routes
- Smooth automatic operation
- Strong reliability reputation
- Excellent motorway stability

Market segment:

Premium executive hybrid saloon / Spain

Brand: Honda

Model: Jazz 1.5 Hybrid Crosstar

Price: €18,900

Year: 2022

Type of car: City Car / Crossover

Mileage: 26,400 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Yellow

Description:

The Honda Jazz Crosstar Hybrid is a compact, highly practical city car with a crossover style, ideal for Spanish urban environments where efficiency and maneuverability matter. Its hybrid system helps reduce fuel consumption in daily stop-and-go driving, and the automatic setup keeps traffic driving easy. The compact dimensions suit tight parking, while the interior remains flexible for everyday errands and small family routines. With low mileage and a recent year, it's a strong option for drivers who want a modern, efficient car that feels simple to own and operate.

Ideal for:

Urban commuters, first-time buyers, small households, drivers prioritizing efficiency, daily errands.

Key advantages:

- Excellent city efficiency (hybrid)
- Easy automatic driving
- Compact size for urban parking
- Practical interior flexibility
- Low mileage and recent year

Market segment:

Urban hybrid crossover / Spain

Brand: Renault

Model: Arkana E-Tech Hybrid

Price: €24,900

Year: 2022

Type of car: SUV Coupe

Mileage: 39,200 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Black

Description:

The Renault Arkana E-Tech Hybrid is a stylish SUV-coupe that offers hybrid efficiency in a practical, daily-friendly package. It works well for Spanish drivers who want a higher seating position and a modern look, while keeping fuel consumption under control in city and suburban commuting. The automatic hybrid drivetrain supports smooth traffic driving and comfortable cruising on longer trips. This model is a good fit for buyers who want something more distinctive than a standard SUV, while still prioritizing everyday usability and efficiency.

Ideal for:

Style-conscious commuters, hybrid buyers, suburban drivers, mixed city/highway use, modern SUV shoppers.

Key advantages:

- Hybrid efficiency without charging

- Smooth automatic driving
- Distinctive SUV-coupe styling
- Practical daily usability
- Strong fit for Spanish demand trends

Market segment:

Hybrid SUV-coupe / Mid-range Spain

Brand: Toyota

Model: Prius Plug-in Hybrid (PHEV)

Price: €24,600

Year: 2020

Type of car: Hatchback

Mileage: 61,800 km

Fuel: Plug-in Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: White

Description:

The Toyota Prius Plug-in Hybrid is a practical choice for Spanish drivers who can charge regularly and want very low fuel use for daily commuting, while keeping the flexibility of a gasoline engine for longer trips. The automatic transmission and electrified driving behavior make it comfortable in city traffic, and its efficiency-focused identity suits cost-conscious users. It's particularly relevant for thesis demonstration because it clearly shows how charging access changes operating costs and daily driving patterns. With realistic mileage, it remains a credible dealership inventory option.

Ideal for:

Commuters with charging access, efficiency-focused drivers, city traffic users, long-distance flexibility seekers.

Key advantages:

- Plug-in hybrid efficiency potential
- Smooth automatic driving
- Great for urban commuting
- Flexible for long trips
- Strong efficiency reputation

Market segment:
Efficiency plug-in hybrid hatchback / Spain

Brand: Hyundai
Model: Santa Fe 1.6 Plug-in Hybrid
Price: €39,500
Year: 2022
Type of car: Large SUV
Mileage: 41,700 km
Fuel: Plug-in Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Grey

Description:

The Hyundai Santa Fe Plug-in Hybrid is a large family SUV suited to Spanish households needing space and the ability to reduce fuel use on daily trips when charging is available. The plug-in hybrid setup supports short commutes with lower fuel consumption, while maintaining full flexibility for longer motorway travel and family holidays. The automatic transmission makes daily driving easy, and the large SUV format is ideal for carrying passengers and luggage comfortably. This is a strong “family PHEV” example for your thesis demo, showing how electrification can fit larger vehicles.

Ideal for:

Large families, drivers with charging access, long-distance travel, premium family SUV use, mixed routes.

Key advantages:

- Plug-in hybrid commuting benefits
- Large SUV space and comfort
- Smooth automatic operation
- Suitable for family travel
- Flexible for long journeys

Market segment:
Large plug-in hybrid family SUV / Spain

Brand: Kia
Model: Sorento 1.6 Hybrid
Price: €37,900

Year: 2021

Type of car: Large SUV

Mileage: 58,800 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Dark Blue

Description:

The Kia Sorento Hybrid is a large SUV designed for families who want space and comfort while improving fuel efficiency versus a traditional large SUV. Its hybrid drivetrain supports lower consumption in mixed routes and remains comfortable for motorway travel across Spain. The automatic transmission provides a relaxed driving experience in traffic, and the cabin offers practical space for passengers and luggage. This model fits buyers who want a bigger SUV for family use but still want controlled running costs and modern electrification without needing to plug in.

Ideal for:

Families needing space, long-distance travel, hybrid SUV buyers, daily multi-passenger use, mixed routes.

Key advantages:

- Large family SUV practicality
- Hybrid efficiency without charging
- Smooth automatic comfort
- Suitable for long journeys
- Strong everyday versatility

Market segment:

Large hybrid family SUV / Mid-range Spain

Brand: Toyota

Model: Proace City Verso 1.5D

Price: €21,400

Year: 2021

Type of car: MPV / Family Van

Mileage: 72,900 km

Fuel: Diesel

Transmission: Manual

Colour: White

Description:

The Toyota Proace City Verso is a practical family MPV designed for maximum usability—ideal for Spanish families needing flexible space or for small businesses combining passenger transport with daily work needs. While not a hybrid, it is relevant in a dealership demo as a practical family “space solution” that complements the hybrid-heavy portfolio. The diesel engine supports efficient motorway travel, and the manual gearbox keeps ownership straightforward. It’s well suited for school runs, weekend travel, and carrying bulky items, offering strong real-world practicality in a compact van format.

Ideal for:

Large families, practical daily transport, airport runs, small business use, frequent cargo needs.

Key advantages:

- High practicality and interior flexibility
- Efficient diesel for longer routes
- Large cargo and passenger space
- Simple manual operation
- Strong everyday usability

Market segment:

Family MPV / Practical Spain

Brand: MG

Model: HS Plug-in Hybrid

Price: €24,900

Year: 2021

Type of car: SUV

Mileage: 55,400 km

Fuel: Plug-in Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Red

Description:

The MG HS Plug-in Hybrid is a value-focused PHEV SUV suitable for Spanish buyers who want plug-in benefits at a more accessible price point. It supports reduced fuel consumption on short trips when charged regularly, while the gasoline engine keeps long-distance travel flexible. The automatic transmission improves comfort in traffic, and the SUV format provides practical space for families. This model is useful for your thesis demo because it represents a budget-friendly path into electrified SUVs, showing how price points can influence adoption alongside efficiency.

Ideal for:

Families, budget-conscious plug-in hybrid buyers, commuters with charging access, daily mixed routes.

Key advantages:

- Plug-in hybrid efficiency potential
- Automatic driving convenience
- Practical SUV interior space
- Strong value proposition
- Flexible for city and motorway use

Market segment:

Value plug-in hybrid SUV / Spain

Brand: Toyota

Model: Highlander 2.5 Hybrid

Price: €44,900

Year: 2021

Type of car: Large SUV

Mileage: 59,900 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Metallic Grey

Description:

The Toyota Highlander Hybrid is a large SUV built for families who need space and comfort while keeping fuel consumption lower than a conventional large petrol SUV. Its hybrid drivetrain performs well in mixed Spanish driving, supporting efficient urban segments and smooth motorway travel. The automatic transmission and comfortable ride make it suitable for long-distance family trips and daily routines. This is a strong “large hybrid SUV” example for a thesis demo because it shows how hybrid technology can scale to bigger family vehicles while maintaining practicality and ownership predictability.

Ideal for:

Large families, long-distance travel, drivers wanting a large SUV with lower running costs, mixed routes.

Key advantages:

- Large family SUV space

- Hybrid efficiency for vehicle size
- Smooth automatic comfort
- Strong Toyota reliability positioning
- Great for long trips in Spain

Market segment:

Large hybrid family SUV / Upper mid Spain

Brand: Lexus

Model: RX 450h Hybrid

Price: €49,900

Year: 2020

Type of car: Luxury SUV

Mileage: 68,200 km

Fuel: Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: Black

Description:

The Lexus RX 450h is a luxury hybrid SUV designed for comfort, refinement, and smooth daily driving. It suits Spanish buyers who want a premium SUV for commuting and long-distance travel while benefiting from hybrid efficiency and quiet operation. The automatic hybrid drivetrain is relaxed in traffic and stable at motorway speeds, making it ideal for executive travel and family use. Lexus' strong reliability reputation supports predictable ownership and long-term confidence. This model is a premium option that demonstrates how hybrid technology can deliver luxury-level comfort alongside efficiency.

Ideal for:

Luxury SUV buyers, executives, families seeking premium comfort, long-distance motorway use.

Key advantages:

- Luxury comfort and quietness
- Efficient hybrid for mixed routes
- Smooth automatic driving
- Strong reliability reputation
- Excellent long-distance refinement

Market segment:
Luxury hybrid SUV / Spain

Brand: Toyota
Model: Aygo X 1.0 Play
Price: €13,900
Year: 2022
Type of car: City Car
Mileage: 28,200 km
Fuel: Gasoline
Transmission: Manual
Colour: White

Description:

The Toyota Aygo X is a city-focused vehicle designed for urban Spain, where compact size, easy parking, and low ownership costs are key. While not hybrid, it complements a hybrid-heavy dealership inventory as a budget city option for drivers who prioritize affordability and simplicity. The manual transmission and small petrol engine keep maintenance straightforward, and the raised city-car styling gives a confident seating position for urban driving. This model fits students, first-time buyers, or households needing a second car for local trips and errands.

Ideal for:

City driving, first-time buyers, students, short commutes, budget-focused households.

Key advantages:

- Very easy parking and maneuvering
- Low running costs
- Simple manual ownership
- Great for short urban trips
- Strong city-car practicality

Market segment:
Urban city car / Budget Spain

Brand: Toyota
Model: Corolla 2.0 Hybrid GR Sport
Price: €25,900
Year: 2022

Type of car: Hatchback
Mileage: 33,900 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Black

Description:

The Toyota Corolla 2.0 Hybrid GR Sport offers a stronger, more responsive hybrid driving experience while keeping the key benefits Toyota hybrids are known for in Spain: low consumption and smooth automatic operation. It suits drivers who want an efficient daily car but prefer a sportier look and a slightly more dynamic feel than the standard 1.8 version. The hatchback layout remains practical for commuting and errands, while still being comfortable for longer motorway trips. This is an excellent thesis-demo vehicle because it shows how performance preferences can be balanced with efficiency within the same model line.

Ideal for:

Commuters, drivers wanting sportier styling, hybrid buyers, mixed city/highway routes, urban professionals.

Key advantages:

- More responsive hybrid performance
- Smooth automatic driving
- Low consumption in daily use
- Practical hatchback versatility
- Strong resale appeal in Spain

Market segment:

Sporty hybrid hatchback / Mid-range Spain

Brand: Honda
Model: HR-V 1.5 e:HEV
Price: €27,400
Year: 2023
Type of car: Compact SUV
Mileage: 18,700 km
Fuel: Hybrid (Gasoline + Electric)
Transmission: Automatic
Colour: Grey

Description:

The Honda HR-V e:HEV is a modern compact hybrid SUV that fits Spanish city and

suburban driving, offering efficient daily operation and a comfortable automatic driving experience. Its hybrid setup reduces fuel consumption during frequent stops and low-speed urban routes, while still being suitable for motorway commuting. The compact SUV body style provides a higher seating position and practical interior flexibility for everyday tasks. With very low mileage and a recent year, it's an excellent demo vehicle representing new-generation hybrid crossovers that align well with current Spanish buyer preferences.

Ideal for:

Urban commuters, compact SUV buyers, hybrid-focused drivers, small families, daily mixed routes.

Key advantages:

- Efficient hybrid for city driving
- Smooth automatic comfort
- Compact SUV practicality
- Very low mileage and recent year
- Suitable for mixed Spanish routes

Market segment:

Modern compact hybrid SUV / Spain

Brand: Toyota

Model: RAV4 Plug-in Hybrid (PHEV)

Price: €39,900

Year: 2021

Type of car: Medium SUV

Mileage: 49,600 km

Fuel: Plug-in Hybrid (Gasoline + Electric)

Transmission: Automatic

Colour: White

Description:

The Toyota RAV4 Plug-in Hybrid is a highly relevant Spain-market demo vehicle because it blends family SUV practicality with strong efficiency potential for drivers who can charge regularly. Short daily commutes can be completed with significantly reduced fuel use, while the gasoline engine keeps longer trips across Spain flexible. The automatic transmission is comfortable in traffic, and the medium SUV format offers space for passengers and luggage. This model is ideal for explaining how charging access, trip length, and household routines affect the “best” recommendation in a dealership chatbot.

Ideal for:

Families, commuters with charging access, long-distance travel with occasional city driving, efficiency-focused SUV buyers.

Key advantages:

- Plug-in hybrid commuting benefits
- Spacious family SUV usability
- Smooth automatic comfort
- Flexible for long trips
- Strong Toyota reliability and resale

Market segment:

Plug-in hybrid family SUV / Upper mid Spain
